ONLINE CLASS

Human Influence on Wisconsin's Forests

This web-based course examines Wisconsin's forest resources and the role our forests play in our past, current, and future ecological, economic, and social well-being. The course is designed for the educator who wants to acquire the background necessary to teach their students about Wisconsin's forests.

Location	Online
Dates & Times	March 24 – April 28, 2014 Regular participation required throughout the 5 weeks. You may work on each assigned task at a time convenient to you but will have a limited number of days to complete each task.
Instructor	Sarah Gilbert
Total Fee	$65 (assumes scholarship granted) The course may also be audited for the same fee.

To Register:

- Click on "Professional Development" at www.leafprogram.org for a registration form and instructions.
- Watch for a confirmation email.
- For more information, contact leaf@uwsp.edu.

Registration Deadline: January 24, 2014

Limited Scholarships for Graduate Credit Available!

You may take this course for 1 graduate credit as NRES 623.

Scholarships will be awarded on a first-come first-served basis.
Credit cost without the scholarship is $424.47

This course provided in cooperation with UWSP's College of Natural Resources, the Wisconsin Center for Environmental Education, and the Wisconsin Department of Natural Resources-Division of Forestry.
