

FOLLOW-UP STUDY OF 2001 GRADUATES IN TEACHING

Career Services Office, University of Wisconsin-Stevens Point

This report provides data on the employment, or continued educational status, of UWSP graduates of December 2000, May and August 2001. Research was completed within a year of graduation, with the report compiled for release in the spring of 2002. Statistical information is provided, as is a detailed listing of job titles, employers and locations for graduates. Note that the report represents individuals receiving their baccalaureate degree, not individuals who already have a degree and are adding teaching certification.

The Career Services staff makes numerous attempts to collect data from each graduate. Information in this report represents contacts with 98% of the graduates or their families (251 of the 256 graduates).

Readers using this type of information in career decision-making should always consult with a career counselor, faculty member, and/or other Educational professionals.

STATISTICAL REPORT CATEGORIES

Each graduate is counted only once, in spite of the fact that many complete multiple majors simultaneously. We generally list the person according to the major that appears first in the graduation printout from the Records Office and note these occurrences in our statistics with an asterisk and footnote.

Our categories and their explanations follow:

- *Total # of Graduates* and *Total # Seeking*: These categories distinguish between the number of people graduating and the number who are entering the work force/pursuing additional schooling. Percentages are calculated based on the total number of graduates seeking employment or further schooling, not on the total number of graduates.
- *Employed In Field*: Individuals who report that their work is in an educational setting related to their academic study, or whom we feel are working in an educational position that utilizes their college degree. The report distinguishes between those employed full-time and those employed part-time in educational capacities. Full-time includes graduates employed 75% or more. Part-time includes individuals employed as teachers with less than a 75% contract, as well

as individuals working full or part-time as substitute teachers, coaches, or educational aides.

- *Employed Out of Field*: Individuals reporting work that is not in a teaching setting. This includes both employment unrelated to the graduate's degree as well as that which is related, but is not in an educational setting (ex: Mathematics major working as a Financial Planner).
- *Further Schooling*: Individuals who are continuing their education in graduate or professional programs, as well as those who are returning to school for an additional major or selected course work.
- *Available*: Graduates who are actively seeking employment but have not yet accepted a position.
- *Total Placed*: Number of people who have secured some type of employment or are continuing their education.
- *Not Seeking*: Individuals reporting they are not entering the work force nor pursuing further schooling. (Number not included in percentage calculations.)
- *No Report*: Graduates whom we were unable to reach - or who were unwilling to provide the requested information. (Number not included in percentage calculations.)

DETAILED REPORT CATEGORIES

Information is organized alphabetically according to academic major with individual names omitted to maintain confidentiality. All types of employment are listed together (encompassing the statistical report categories of "employed in field" and "employed out of teaching"), followed by the list of further schooling reported. We list whatever information we acquire, and in some cases this is less than complete. Unless we are able to survey the graduate directly, we may have difficulty obtaining all the details we request (specific job title, name and location of the employer, whether the position is full-time or part-time).

Many graduates pursue teaching certification in several fields by completing multiple academic majors or minors. This opens employment options in areas other than those in the academic major under which they are listed in our report, and helps to explain, for example, how an Elementary Education major may report being employed as a Spanish teacher.

GRAND TOTAL	256	251	214	85%	22	9%	236	94%	10	4%	5	2%	0	251	100%	0	5

** Due to double majors, there were more graduates in this major than indicated. Double majors are normally counted and listed according to the major appearing first on the graduation printout from the Records Office. In addition to the majors appearing above, one Wildlife major is included with Biology; one Psychology major is included with Biology and two additional Psychology majors are included in Social Science.

PLEASE NOTE:

Percentages are calculated based on the total number of graduates seeking employment, not the total number of graduates.

In the Communicative Disorders field (Speech-Language Pathology/Audiology), a Master's degree is normally required for certification in Wisconsin. Of the twenty-seven MS degrees conferred, twenty-six graduates were seeking employment and all were employed in field.

CAREER SERVICES OFFICE OF THE UNIVERSITY OF WISCONSIN - STEVENS POINT

REPORT ON THE EDUCATION GRADUATES OF 2001

Listing of employment and further schooling by majors, as reported by the Education graduates

BIOLOGY

Employment Reported:

Biology and Physical Science Teacher, Pulaski School District, Pulaski, WI
Senior Chemist, Sigma-Aldrich Company, Sheboygan, WI
Substitute Teacher, D.C. Everest School District, Schofield, WI
High School Science Teacher, Kenosha School District, Kenosha, WI
Biology Teacher, Baraboo School District, Baraboo, WI

High School Science Teacher, Manitowoc School District, Manitowoc, WI
Teacher, Stevens Point Area School District, Stevens Point, WI
High School Science Teacher, Wonewoc-Center School District, Wonewoc, WI
Mathematics and Reading Teacher, Sylvan Learning Center, Green Bay, WI

Further Schooling Reported:

Further Schooling, Masters Degree in Guidance & Counseling, UW-Stout, Menominee, WI

COMPUTER INFORMATION SYSTEMS

Employment Reported:

Middle School Computer Teacher, Mauston School District, Mauston, WI
