PLT PLUS:

“Project Learning Tree -
People, Land Use, &
Stewardship”

June 22-23, 2015

Hosted by

NORTHLAND®
COLLEGE

Sea kayaking on Lake Superior

Project Learning Tree

Project Learning Tree is an award-winning environmental education program designed for teachers and other educators, parents, and community leaders working with youth from preschool through grade 12.

Mission

PLT advances environmental literacy and promotes stewardship through excellence in environmental education, professional development, and curriculum resources that use trees and forests as windows on the world.

Vision

PLT is committed to creating a future where the next generation values the natural world and has the knowledge and skills necessary to make informed decisions and take responsible actions to sustain forests and the broader environment.

Where does “PLUS” come in?

At Northland College, we teach students to “Think Differently, Live Differently.” This motto influences everything we do, including our relationships with people, how we use land, & how we work to be stewards of the Chequamegon Bay.

During PLT PLUS, you’ll learn all about Project Learning Tree, in addition to:

- An afternoon paddling on Lake Superior
- An evening cultural session around the campfire
- Trying out PLT activities on area middle school youth, followed by discussion
- Meet other educators who have the same interests & challenges as you.

Harnessing power from wind is one way Northland shows stewardship & works toward sustainability in energy production.

Workshop Details

PLT PLUS is targeted for formal & nonformal educators who are looking for effective, multidisciplinary activities that can be presented to a variety of students in a fun, hands-on way.

Northland College in Ashland, WI is hosting a 2-day expanded PLT workshop to give you a more in-depth PLT experience. Your facilitator is Heather Rickerl. Heather has 10+ years of experience in environmental education.

Dates of the workshop are June 22-23, 2015.
