

Resource Ecologist – Kevin Burns

Direct Line: 715-345-6316

Email: kburns@uwsp.edu

BIO: Kevin earned both his BS and MS degree's from UWSP, with major studies in Forestry and Natural Resources Management. He has over 28 years of consulting experience working with forest landowners in Wisconsin and Michigan. His special interest is in the use of evolving technologies as they relate to the inventory and sustainable management of natural resources. Kevin has a long history with Treehaven, beginning as a student of the CNR summer camp program in 1989. Since that time he has instructed summer camp forestry courses, along with numerous landowner workshops, and continuing forestry education courses at Treehaven. Kevin is responsible for all land management activities on the 1,400 acres Treehaven demonstration forest, and as a member of the CNR Forestry Faculty, Kevin also coordinates research on the property, supervises student land management projects, and instructs CNR forestry and continuing education courses.
