| <b>Fax:</b>                        |            |            |
| <b>E-mail:</b>                     |            |            |
| <b>Current Position:</b>           |            |            |

Please attach the following:

- Current Resume/CV with details regarding job history, education, awards and other recognitions, and publications.
- Essay on polymer chemistry teaching strategies (<1000 words). Include teaching strategies, demonstrations, hands-on laboratories, and materials that use polymers in an innovative and successful lesson. Detail how this approach has influenced, excited and/or encouraged students to investigate the nature of polymeric materials.
- Polymer Chemistry Workshops attended and/or organized (within the last five years). Include dates and locations.
- One letter of recommendation from a supervisor or administrator in your school district.
- Other supporting material: i.e. letters from students, parents, or other professionals involved in the field of polymer science in industry or academia, or fellow science teachers, and up to three relevant photographs with captions and dates.

The deadline for application is February 1. Please submit the entire application or questions by e-mail to Dr. Anne Padías ([anne@email.arizona.edu](mailto:anne@email.arizona.edu)).
