The UWMC Library owns over 100 books in the popular series **Opposing Viewpoints**. This series devotes each book to a particular topic and debates the issues surrounding the topic from multiple perspectives. If you need a to write a paper on a topic and are not sure where to turn, browsing through this collection located next to the library's reference desk might be a good place to find some inspiration. The library also has an *online* resource equivalent to this series called **Points of View**.

Restroom Readers can be accessed electronically online through the UWMC Library's homepage.
