

## **12.03.07 Minutes**

### **Election:**

Congratulations to Courtney Weigand, our new president. She gave a short speech and discussed what her focus is going to be for the upcoming semester.

### **Advertisement:**

We would be promoting our organization more. We could possibly get a table in the University Center, create specialized posters for the major academic buildings, and make those t-shirts.

### **Events:**

We would start planning right away. We need to plan for our intended speaker, Annie Laurie Gaylor, as well as the critical thinking seminar with Professor Sage.

### **Golden Compass:**

The movie is released this Friday. We might arrange a group trip to watch it, if it plays in the area.

### **Forum:**

We have not had any updates on the status of our forum request.

### **Next semester projects/events:**

#### **Member database:**

We want to develop a member database, perhaps a "historian" position as well, so we can have a contact list to access.

#### **Speaker:**

We want to get Annie Laurie Gaylor to speak and get the College Feminists to co-sponsor, because she will be discussing feminist issues.

#### **American Atheists:**

We are considering making a group trip to their annual conference, which is held in March. We are going to discuss this matter further at future meetings.
