

DNR Certification No. 750040280

DATCP Certification No. 115097-D3

COMPLETE WATER TESTING PRICE LIST

INDIVIDUAL ANALYSES			
Test Name	Price	Test Name	Price
<u>General</u>		<u>Bacteria</u>	
Alkalinity	\$18.00	Coliform/ <i>E. coli</i> (present/absent)	\$30.00
Chemical Oxygen Demand (COD)	\$25.00	Coliform/ <i>E. coli</i> (count)	\$41.00
Chloride (Cl)	\$24.00	*NR809/NR812 Compliance Coliform/ <i>E. coli</i> (present/absent)	\$32.00
Chlorophyll-a	\$36.00	<u>Nitrogen</u>	
Conductivity	\$18.00	Ammonium as NH ₃ -N (NH ₄)	\$26.00
Fluoride	\$29.00	Nitrate+Nitrite as N (NO ₃ +NO ₂)	\$29.00
Total Hardness	\$30.00	*NR809/NR812 Compliance Nitrate+Nitrite as N (NO ₃ +NO ₂)	\$31.00
pH	\$18.00	Total Kjeldahl Nitrogen (TKN)	\$31.00
Corrosivity Index	\$42.00	Total Nitrogen (TKN+NO ₃ +NO ₂)	\$60.00
Turbidity	\$18.00	Organic Nitrogen (TKN-NH ₄)	\$56.00
<u>Phosphorus</u>		<u>Solids</u>	
Orthophosphate as P (PO ₄)	\$26.00	Suspended Sediment (SS)	\$25.00
Total Phosphorus (TP)	\$31.00	Total Dissolved Solids (TDS)	\$19.00
<u>Organic Carbon</u>		Total Suspended Sediment (TSS)	\$25.00
Dissolved Organic Carbon (DOC)	\$35.00	<u>Nutrient Packages</u>	
Total Organic Carbon (TOC)	\$35.00	NO ₃ +NO ₂ /Cl Package	\$45.00
		TKN/TP Package	\$57.00

TRACE METALS-DISSOLVED OR TOTAL **		
Metal Analyses are \$30/per Element (See Packages for Discounted Pricing)		
Aluminum	Copper	Selenium
Arsenic Screen	Iron	Silver
Barium	Lead Screen	Sodium
Beryllium	Lithium	Strontium
Boron	Magnesium	Sulfur as Sulfate
Cadmium	Manganese	Uranium Screen
Calcium	Molybdenum	Vanadium
Chromium	Nickel	Zinc
Cobalt	Potassium	*NR809 Compliance Copper: \$32.00
*NR809/NR812 Compliance Arsenic or NR809 Compliance Lead: \$57/per Element		
Low Level Arsenic, Lead, or Uranium: \$55/per Element		
*All Compliance Testing Includes Agency Reporting		
**Digestion Fee for Total Metals Analysis (SW-846 Method 3020): \$15.00/Sample		

ORGANIC COMPOUND ANALYSES

✚ Normal turnaround time for the analyses below is 4-6 weeks depending on sample complexity

Pesticide Tests	Description	Price
Diaminochlorotriazine Screen (DACT)	Atrazine screen recommended if Nitrate+Nitrite results are high	\$45.00
Chloroacetanilide Herbicide Metabolites (CAAMs)	Four compounds that result from herbicides that break down in soil and become water soluble	\$131.00
Nitrogen and Phosphorous Pesticides (NPs)	Twenty-two various pesticides containing nitrogen and/or phosphorus	\$158.00
Neonicotinoid Insecticides	Five insecticides used in agriculture that are toxic to a wide range of insects including pollinators	\$231.00
Pharmaceuticals and Personal Care Products		
Pharmaceuticals (PPCPs)	Six compounds including artificial sweeteners, antibiotics, and caffeine that are indicators of human waste contamination	\$231.00

DISCOUNTED PACKAGES

Package Name	Tests Included in Package	Price
Homeowner	Coliform Bacteria, Nitrate+Nitrite, pH, Alkalinity, Total Hardness, Chloride, Conductivity, Corrosivity Index	\$78.00
Homeowner Package with Bacteria Count	Includes the Homeowner Package with Bacteria Count (estimated number of bacteria colonies)	\$91.00
Comprehensive Homeowner Package	Includes the Homeowner Package, the Standard Metals Package, and the DACT Screen (Atrazine Screen). Requires 3 Bottles	\$191.00
Infant/Children/Pregnancy Package	Includes the Homeowner Package, the Standard Metals Package, and Fluoride. Requires 3 Bottles	\$175.00
Standard Metals (A)	Includes 14 elements: Aluminum, Arsenic Screen, Calcium, Copper, Iron, Lead Screen, Magnesium, Manganese, Potassium, Sodium, Strontium, Sulfur as Sulfate, Uranium Screen, and Zinc	\$75.00
Specialty Metals (B)	Includes 12 elements: Barium, Beryllium, Boron, Cadmium, Chromium, Cobalt, Lithium, Molybdenum, Nickel, Selenium, Silver, Vanadium	\$79.00
Advanced Metals (A+B)	Standard and Specialty Metals Packages	\$140.00
Lead and Copper Compliance	Also known as the Lead and Copper Rule. Meets requirements of monitoring under NR809. Agency reporting included	\$87.00
New Well/Well Drillers	Compliance Bacteria and Compliance Nitrate+Nitrite. Meets NR812 monitoring requirements. Agency reporting included	\$61.00
Well Inspection/Well Work	Compliance Bacteria, Compliance Nitrate+Nitrite, and Compliance Arsenic. Meets NR812 monitoring requirements. Agency reporting included	\$116.00
NP/CAAMs	Twenty-six pesticide compounds (see description in Organic Compounds above)	\$228.00
Source Tracing Compounds	Used to identify sources of contamination. PPCPs can indicate septic sources, CAAMs can indicate agricultural sources	\$350.00
Advanced Lake (A)	Ammonia, Alkalinity, Calcium, Chloride, Magnesium, Nitrate+Nitrite, pH, Potassium, Orthophosphate, Sodium, Total Hardness, Total Kjeldahl Nitrogen, Total Phosphorus, Turbidity, and Sulfur as Sulfate	\$310.00
Standard Lake (B)	Ammonia, Chloride, Conductivity, Nitrate+Nitrite, Orthophosphate, Total Phosphorus, Total Kjeldahl Nitrogen	\$150.00
Summer Lake (C)	Chlorophyll-a, Nitrate+Nitrite, Total Phosphorus, Total Kjeldahl Nitrogen	\$115.00
River	Ammonia, Chloride, Nitrate+Nitrite, Orthophosphate, Total Kjeldahl Nitrogen, Total Phosphorus, Total Suspended Sediment	\$145.00
✚ Priority analysis (48-hour turnaround time): Double the list price- Must confirm availability with lab		
✚ Nitrate+Nitrite and metals results from the Homeowner Packages cannot be used for compliance reporting
