Enrich Your Afterschool Programs with Place-Based Environmental Education

Including environmental education in your afterschool programming provides students with meaningful and engaging opportunities to connect their learning to the world around them. Project Learning Tree makes it easy to add quality environmental education activities into your afterschool programs. Join us for a 4-hour introductory workshop geared for afterschool educators, and receive PLT’s award winning K-8 Environmental Education Activity Guide. This curriculum is packed with standards-based, hands-on activities to do both outdoors and in.

To read how PLT in afterschool programing aligns with the new federal Every Student Succeeds Act, read the blog post at https://goo.gl/VNA0LF. To register for one of the workshops listed below or to request a personalized workshop for your staff, email Nicole at wcee-plt@uwsp.edu.

The cost for each of the workshops listed below is $25 per person. Thanks to support from WEEB, grant funds are available for most workshops, bringing the cost to $15—contact wcee-plt@uwsp.edu for details!

- Monday, August 1st from 9:00 to 1:00; Hawthorn Glen, Milwaukee
- Wednesday, August 3rd 1:00 to 5:00; Girl Scouts Service Center, La Crosse
