

LEAF School Grounds Workshop Interest

Educating Beyond Four Walls

Step Outside!

Discover the world of teaching opportunities waiting outside your door! Our 3-hour workshop will introduce you to activities that have been proven to get kids excited and engaged. Measurement, graphing, data collection, habitat, visual perspective, descriptive writing, social interactions, and biodiversity are just a few of the things you can study in any school ground setting. We'll show you how to make learning outdoors a valuable and enjoyable part of your existing curriculum, not an add-on to your busy day. Whether your staff are pros at getting your students outside, or love the idea but don't know where to start, this workshop will open your eyes to new lesson ideas.

Let us know if you are interested in having LEAF come to your school.

Who: K-12 teachers, all subjects

Where: Your School

Cost: Varies—contact leaf@uwsp.edu for more information

How do I sign my school up? Fill in the information below. Print and return this form by mail to LEAF/WCEE 800 Reserve St., Stevens Point, WI 54481 OR scan the printed form and email to leaf@uwsp.edu. We'll respond by email and see what dates and times we can set up.
