Training in the use of Project Learning Tree’s Environmental Experiences for Early Childhood

- Thursday, Oct. 25th from 4:30 to 7:30 pm
- Ice Age Visitor Center
- Cost: $10

Foster a sense of wonder in young children through the Project Learning Tree Early Childhood Activity Guide. These interactive environmental education materials invite children ages 3-6 to become nature detectives, dance with a tree, and take a simulated walk through a forest as they experience the simple joys of discovery.

Designed for all early childhood educators, PLT’s hands-on activities address different learning styles while integrating nature exploration, literature, art, and music and movement into 30 learning experiences.

PLT’s Early Childhood curriculum is correlated with the Head Start Child Outcomes Framework and the NAEYC standards. Registry credit is available for this workshop.

Registration Information
Go to https://www.uwsp.edu/cnr-ap/wcee/Pages/Professional-Development.aspx for the registration link. The cost is $10. Register by October 12th.

Important Details
The workshop may be spending some time outdoors. Please come dressed for the weather, and let us know if you will need special accommodations.
