Using Project Learning Tree to Support K-8 Outdoor Learning

Training in the use of Project Learning Tree’s K-8 Environmental Education Activity Guide

- Thursday, October 18th from 4:00 to 7:00
- Hartje Nature Center, Reedsburg
- Cost: $35 Reduced to $10 thanks to support from DNR Division of Forestry

Project Learning Tree is a powerful tool to help educators get students outdoors. With dozens of activities from PLT’s Environmental Education Activity Guide designed to bring standards-based teaching and learning into outdoor settings, teachers can use place-based education to engage students in learning about their world.

K-8 teachers are invited to Hartje Nature Center for hands-on experience with outdoor PLT activities, as well as pointers and discussion designed to help participants feel comfortable bringing students outdoors.

PLT’s award winning K-8 curriculum is correlated with the Common Core State Standards and the Wisconsin Model Academic Standards, and shares a common foundation with the Next Generation Science Standards.

Registration Information
Visit goo.gl/iEc9MQ for registration information. The cost is $10.
Register by October 8th.
