Studio Experiences

**Glass Fusing and Slumping with Kristen Thielking**
Design and create sculptures, tiles, or jewelry pieces using fused glass. Glass fusing is done by stacking glass pieces or beads and melting them together in a kiln. Slumping is a similar process that creates larger pieces such as bowls.

**Graphic Narration with Rob Stolzer**
Explore the world of the visual and the verbal in this graphic narration workshop! Create at least one multi-page graphic narrative piece, while learning about the history of graphic novels, comic strips, and narrative illustration.

**Relief Printmaking with Alexander Landerman**
Design, carve, and print with linoleum blocks using traditional methods and professional grade equipment. Complete a small edition of prints and gain a strong understanding of the essentials of printmaking.

**Design Challenge with Stuart Morris**
Explore the design process from proposed materials through site considerations to execution of the final work. As a designer, you’ll receive a list of materials, model materials, and the design objectives. The challenge will be to blend the materials, ideas, and site interactions into a relationship.

**Mixed Media Painting with Mark Brueggeman**
Explore various drawing media and create large scale art. Use charcoal, pastel, ink, collage, found material, and a variety of drawing tools while learning to successfully combine media and compose an image.

**Daily Schedule**
