37th Annual Good Ideas Conference
A University Experience for Adults

Tuesday - Thursday
January 11-13, 2022

Stay tuned for website updates!
uwsp.edu/conted/Pages/Good-Ideas-Event.aspx

In person and live online, you choose how to attend!

An enriching three day program for adult lifelong learners.

Learning Is Forever
**Welcome To LIFE**

LIFE (Learning Is ForEver) is a membership-based organization of adult learners providing an opportunity to share learning experiences and discover new joys. It is sponsored by University of Wisconsin-Stevens Point and hosted by Continuing Education and Outreach. All instructors are volunteers.

Designed to meet your needs and interests, the LIFE program provides new learning opportunities on a variety of topics in an array of formats, including:

- Peer Teaching and Learning
- Lectures by Visiting Experts
- Theater and Sports Events (virtual until in-person is possible)
- Field Trips (virtual until in-person is possible)

**What Does LIFE Offer?**

Since members are the heart of the LIFE program, courses are developed based on member interests. Some classes meet weekly for two to four weeks while others meet once. Courses and events are offered during two terms:

- Summer/Fall (July - December)
- Winter/Spring (January - June)

A LIFE membership includes one term. One bi-annual membership fee ($50) entitles you to participate in as many courses as you wish and select discounted UWSP programming for one semester.

We hope you will enjoy the wide array of classes and activities offered this semester. LIFE's Curriculum Committee (a volunteer group of your fellow members) is always looking for fresh class ideas and new presenters.

If you are interested in leading a class or trip, please contact any of the curriculum committee members, attend a curriculum meeting, or better yet, join the committee! Email the Curriculum Committee or the LIFE Board at UWSPCELIFE@uwsp.edu.

New committee members and visitors are always welcome! Meetings will be via Zoom at 10:30 a.m. on Mondays, August 30, September 13, September 27, October 11, October 25 (*will start at 9:00 a.m.) and November 8.

Welcome to the LIFE Program for the Fall Term

We are excited by the diversity of offerings. All of our classes will be available via Zoom and about half will also be open to in-person attendance. Presenters who are willing to do in-person presentations have chosen which of UWSP’s three campuses to give their class. We are working hard to ensure that in-person programs are available on each campus. Your attendance is not restricted to the campus closest to where you live. LIFE is very happy to be able to resume in-person sessions while at the same time providing them on Zoom for those who want to attend virtually. I should underscore that presentations are also available for viewing from our Canvas library for those who cannot make the time of the presentation. Our excellent volunteer tech staff will help anyone to access programs via Zoom or our growing library.

Looking forward to seeing you this semester!

Ed Miller,
President of LIFE

Privacy Disclaimer in Zoom Classes

Some LIFE classes will be recorded and posted on our Canvas page. The Canvas page is only accessible to registered LIFE members and the recording will only be available there. If you have concerns about your name or face being displayed in this video, please feel free to change your display name and/or shut off your video. You can tell if we are recording by checking for a red light in the top left of your screen. Thank you in advance for saving us hours of editing time.

LIFE BOOK DISCUSSION
Discussion of the book, “The Library Book,” by Susan Orlean. Susan Orlean re-opens the unsolved mystery of the most catastrophic library fire in American history, and delivers a dazzling homage to a beloved institution – our libraries. On the morning of April 29, 1986, a fire alarm sounded in the Los Angeles Public Library. Raging through the stacks, the fire reached 2000 degrees and burned for more than seven hours. It was the largest library fire in the history of the United States: it destroyed four hundred thousand books and damaged seven hundred thousand more, and shut the library down for seven years. The mystery remains: did someone purposefully set fire to the library—and if so, who?

Monday, July 12  
1:00-2:30 p.m.  
Location: Zoom Meeting Only  
Moderator: Anne Rogalski (LIFE Program Manager)

“HI TECH,” AND LET’S CHAT
At “Hi Tech,” and Let’s Chat, we will discuss and answer questions about computer tech stuff, Zoom, other software, TV streaming, cell phones, tablets, and anything else you want to bring up. Drinks of all sorts are welcome and optional but we don’t deliver to your home. Jokes are encouraged. Bring questions of all sorts. And, maybe some answers. We will meet for one hour.

Tuesday, July 13  
1:00 p.m.  
Location: Zoom Meeting Only  
Presenters: Roger Bullis (Professor Emeritus of Digital & Mass Media, UWSP) and Mike Wrzinski (LIFE Tech Team Chair)

LIFE FILM DISCUSSION—INTERNATIONAL FILM
Every two weeks, Roger Bullis and/or P. Sudevan will lead a discussion about a US film or an international film. Film titles will be announced a week or so ahead of time, via email and social media.

Tuesday, July 13  
3:00 p.m.  
Location: Zoom Meeting Only  
Presenter: P. Sudevan (Emeritus Professor of Psychology, UWSP)

LIFE BOOK DISCUSSION
Discussion of the book, “My Antonia,” by Willa Cather, considered one of the most significant American novels of the twentieth century. Set during the great migration west to settle the plains of North America, the narrative follows Antonia Shimerda, a pioneer who comes to Nebraska as a child and grows with the country, inspiring a childhood friend, Jim Burden, to write her life story. The novel is important both for its literary aesthetic and as a portrayal of important aspects of American social life.
Monday, August 9
1:00-2:30 p.m.
Location: Zoom Meeting Only
Moderator: Anne Rogalski (LIFE Program Manager)

MY HAPPY PLACE: UNDERSTANDING YOUR PROPERTY
Where is your happy place? If you had to describe it what would you say? Would you describe the trees and plants? Join us as we take you on a tour of one of our happy places, Schmeeckle Reserve, where we’ll use the trees and plants to describe what our property is, could be, and should be. Through a combination of presentations, activities, and a short walking tour (roughly 0.5 miles) you will learn how to identify key characteristics of prairies, oak savannas, hardwoods, riparian zones, and mixed pine ecosystems.
Thursday, August 12
9:00-11:00 a.m.
Location: In-person Only at Menzel Pavilion, Schmeeckle Reserve, Stevens Point (60 in-person spots)
Presenters: Jessica Tomaszewski, Haley Frater, and Les Werner (Wisconsin Forestry Center Staff, UWSP)
Fee: $20 (Must register before the event—no walk ins)

LIFE MEMBERSHIP COMMITTEE MEETING
All are welcome to attend.
Monday, August 16
9:00 a.m.
Location: Zoom Meeting Only
Presenter: Paul Shogren (LIFE Membership/Promotion Chair)

LIFE COFFEE AND SOCIAL HOUR
Join us for an informal social hour. Today’s topic: What are other careers or professions you have thought about or considered? We look forward to chatting with you.
Wednesday, August 18
10:00 a.m.
Location: Zoom Meeting Only
Presenter: Teresa Stoltenberg (LIFE Social Chair)
WOOD COUNTY HISTORY: THE IMPACT OF THE 1872 WISCONSIN CENTRAL RAILROAD EXTENSION ON A DEVELOPING NORTHERN WOOD COUNTY
The Spring of 1872 saw the Wisconsin Central extending railroad lines west from Stevens Point toward Ashland through the heart of the state, providing access to virgin pine forests and spurring new and developing communities along its way. We will highlight the early histories of Wood County communities established by the Wisconsin Central Railroad.

Thursday, August 19
10:00 a.m.
Location: Hybrid from Marshfield (40 in-person spots)
Presenter: Donald Schnitzler (Retired Program Director, Marshfield Clinic Cytotechnology Program; Past Project Coordinator and Editor for Marshfield’s History Project’s Books)

LIFE NEW MEMBER ORIENTATION MEETING
An orientation meeting for all new and current LIFE Members.
Monday, August 23
10:00 a.m.
Location: Zoom Meeting Only
Presenter: Anne Rogalski (LIFE Program Manager)

GETTING STARTED WITH YOUR FAMILY HISTORY
Finding your ancestors has never been easier. A wealth of online tools makes family history easy and fun. We'll talk about how to get started, find free records and photographs, and locate other types of family information. Also, we'll discuss how your DNA fits into the family puzzle.
Tuesday, August 24
10:00 a.m.
Location: Hybrid from Stevens Point, CBB Room 161 (48 in-person spots)
Presenter: Marilyn Murphy (Retired Library Director, Mount Mercy University)

TED TALKS
The TED Talk program will be hosted by Dave Arey. TED stands for technology, entertainment, and design. LIFE members need to send program suggestions to the host two weeks prior to the TED Talk date. Please send suggestions to uwspcelife@uwsp.edu. One week prior to the TED the talk will be announced. We will start these classes by viewing the TED talk together. Members can watch them before we meet if they want to. The focus will be on discussion and will not be recorded. This will be a member-generated program. Although we have set aside a bi-monthly time slot, the number of programs will depend on the number of suggestions. This is YOUR opportunity to discuss TED talks of interest to LIFE members, like YOU!
Tuesday, August 24
1:00 p.m.
Location: Zoom Meeting Only

ASK ME ABOUT AUDIOLOGY: EDUCATION ON HEARING HEALTH
How do we hear sound? What happens when our hearing mechanism is damaged? This class will present topics about healthy hearing, hearing loss, the role of the audiologist, and the evolution of hearing aids. Participants of this class are more than welcome to come with questions ready, as we will provide time at the end of the class for specific questions. This class will be presented by Doctor of Audiology (Au.D.) students at the University of Wisconsin Audiology Consortium program, supervised by a licensed audiologist on the UWSP Audiology professorial faculty.

Tuesday, September 7
6:30 p.m.
Location: Zoom Meeting Only
Presenters: Hannah Formella (Bachelor of Science and Second Year Doctor of Audiology Student, UWSP)

LESSONS WE CAN LEARN FROM ANDRAGOGY (ADULT EDUCATION)
What does it mean to be an adult learner? If you ever teach/facilitate trainings, how can you maximize the learning experience for participants? How can classes we participate in be more effective? This seminar will delve into some of these questions while exploring the field of andragogy. Andragogy is a theory that refers to methods, practices and principles of adult education. This informative session will provide an overview of andragogy and its key concepts. Participants will be able to identify key principles of andragogy and walk away with practical ways to apply them in their own lives.

Wednesday, September 8
10:00 a.m.
Location: Zoom Meeting
Presenter: Evelyn Nash (M.A. Ed & H.D. She lives and works in Washington, D.C. at the ANSI National Accreditation Board)

Thursday, September 9
1:00 p.m.
Location: Hybrid from Stevens Point CBB Room 161
(48 in-person spots)
Presenter: Marty Loy (Dean of the College of Professional Studies)

HOW BETTER VOTING SYSTEMS PRODUCE BETTER POLITICIANS
Soon after the birth of our nation, observers realized that our voting system - plurality - had flaws that were deep and severe. Since then, mathematicians have developed several superior voting systems, but our country has been reluctant to change. Learn about the flaws of plurality and how these flaws affect the election outcomes and the behavior of politicians themselves. Experience alternative systems and learn how these systems would improve our country.

Friday, September 10
10:00 a.m.
Location: Hybrid from Stevens Point, CBB Room 161
(48 in-person spots)
Presenter: Andy Felt (Professor of Mathematical Sciences, UWSP)

GRAPHENE-BASED MATERIALS AND THEIR DIFFERENT APPLICATIONS
Graphene is a two-dimensional form of carbon with honeycomb structure that was discovered in 2004. Graphene is a superior material with unique specifications. It has a high thermal conductivity which is one of the key parameters where a huge amount of heat must be dissipated in a short period of time such as airplane breaks and nuclear reactors. Graphene is an excellent candidate for different applications such as fuel cells, electronics and water treatment.

Monday, September 13
9:00 a.m.
Location: Hybrid from Stevens Point, CBB Room 161
(48 in-person spots)
Presenter: Seyed Javad Amirfakhri (Professor of Paper Science, UWSP)

LIFE CURRICULUM COMMITTEE MEETING
All are welcome to attend.

Monday, September 13
10:30-NOON
Location: Zoom Meeting Only
LIFE BOOK DISCUSSION
Discussion of the book, “East of Eden”, by John Steinbeck. Set in the rich farmland of California’s Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel.
Monday, September 13
1:00-2:30 p.m.
Location: Zoom Meeting Only
Moderator: Anne Rogalski (LIFE Program Manager)

REVERSE MORTGAGES - WHERE THE BANK PAYS YOU
Informative class to describe what a reverse mortgage is and is not. Are they only for retired people? How do they work and are they a good choice for me? Questions are encouraged.
Tuesday, September 14
10:00 a.m.
Location: Zoom Meeting Only
Presenters: Harlan Accola (Director of Reverse Mortgages of Fairway Independent Mortgage Corporation)

“HI TECH,” AND LET’S CHAT

Moderator: Teresa Stoltenberg (LIFE Social Chair) and LIFE Social Committee Members

LIFE SOCIAL COMMITTEE MEETING
All are welcome to attend.
Wednesday, September 15
11:00 a.m.
Location: Zoom Meeting Only
Presenter: Teresa Stoltenberg (LIFE Member)

HOW BEST TO REDUCE THE IMPACT OF CLIMATE CHANGE
What is the most powerful way we in the United States could combat climate change? What is a way that would accomplish a dramatic improvement in just a short period of time? What is a way that would also address the social inequality in the impact of climate change? We will explore why Congressional passage of carbon fee and dividend is the best way to accomplish all three goals . . . and how we can persuade Congress to take this action.
Wednesday, September 15
1:00 p.m.
Location: Zoom Meeting Only
Presenters: Dan Dietrich (Professor Emeritus of English, UWSP)

POETRY & PROSE
Do you love poetry? Do you love quotations and short stories? Then here is an opportunity to read yours or other writers’ works to a small group of LIFE members in an intimate classroom environment. We will read, listen, discuss and laugh with what we hear and present. Oh! It doesn't even have to be serious works. It is a way to revisit and enjoy poetry and prose every other month. So come and enjoy the experience.
Thursday, September 16
10:00 a.m.
Location: Hybrid from Stevens Point, CBB Room 161
Presenter: Horace Davis (LIFE Member)

THE ROLE OF NUCLEAR ENERGY IN A CLEAN ENERGY FUTURE: OPPORTUNITIES AND CHALLENGES
Nuclear energy provides more than 1/2 of our low-emission electricity in the US and has been the largest contributor to avoided CO2 emissions over the last 60 years. Shifts in the energy landscape over the last decade or more have placed financial pressure on nuclear energy, threatening premature closure of some power plants. In every instance, when nuclear power plants are closed, they are replaced by burning more fossil fuels. Numerous analyses of clean energy futures show that we'll be better off with electricity technologies that share a lot of features with nuclear energy, and the nuclear engineering community is exploring a variety of technology changes that aim to preserve and improve the value proposition. This class will review how nuclear power plants work, discuss the history of nuclear energy in the US, and explore the innovations that may ensure a continued role in clean energy systems of the future.

Tuesday, September 21

HOW TO WRITE A MEMOIR
Peck will discuss the basics of memoir writing, his favorite storytellers, the basic concept of a memoir, how a person gets started in writing a memoir, and potential snags in using quotes and including people still alive. Participants will have time to start their own memoir and share what they've written with others. Peck worked for newspapers in Oconomowoc, Wisconsin Rapids and Janesville. He authored the nonfiction “Death Beyond the Willows, How a Wedding Day Turned Tragic in America’s Heartland,” and the new memoir “Memories of Marshall, Ups and Downs of Growing Up in a Small Town.”

Wednesday, September 22

WHAT EXACTLY IS MONEY? THE CURIOUS STORY OF CIVIL WAR TOKENS
In response to the issuance of paper money in the North during the Civil War, citizens began hoarding pennies. Opportunistic merchants began using small copper tokens that looked like pennies but were not legal currency. The practice flourished throughout the North until the Union government cracked down on the practice in 1864. In this talk, Prof. Barker will share examples of actual tokens and explore both their use and what they can tell us about currency, business, and the relationship between people and their government.

LIVING WITH WOLVES IN WISCONSIN: THE PATH BACK FROM EXTIRPATION
Whether from downtown Madison or the remote areas of northern Wisconsin, most Wisconsinites share not only knowledge of the wolves that live in this state but may even have a story of a unique experience that they had with them. In the mid-1900’s a bounty that had been on wolves had completely extirpated them from the state. 1974 marked the federal listing of wolves on the Endangered Species Act and thus started the protection of wolves in Wisconsin. In 1978, wolves were first detected back in the state up in Bayfield county after recolonizing from a remnant population in northeast Minnesota. Ever since, wolves have again become a major part of Wisconsin’s history and a passion to many wildlife enthusiasts.

DIVINE FOREKNOWLEDGE AND HUMAN FREEDOM
Discussion will be centered on a classic philosophical problem concerning divine foreknowledge and human freedom. In short, the puzzle is that many theists accept (1) God infallibly knows the future and also that (2) humans are free in the sense that they could have done otherwise. At least on the face of it, if we accept (1) then we must deny (2) and if we accept (2) then we must deny (1). We will examine several historical strategies for dealing with this puzzle and consider more deeply what exactly we mean by omniscience and human freedom. Dr. Horn is dedicating this presentation to the memory of the late Richard Feldman, one of the original founders of the LIFE program and an emeritus professor in the UWSP Philosophy Department.

A BOOK TALK—"SEWN IN COAL COUNTRY: AN ORAL HISTORY OF THE PENNSYLVANIA GARMENT INDUSTRY, 1945-1995"
Bob Wolensky will speak about his recently published book (January 2020), "Sewn in Coal Country: An Oral History of the Ladies’ Garment Industry in Pennsylvania, 1945-1995." The volume centers around 16 oral history interviews that he conducted with workers, shop owners, health care professionals, and others affiliated with the apparel industry. The story begins with the so-called “runaway shops” that left New York City in the 1930s and 1940s for the “hinterland” areas of Pennsylvania in search of lower costs. The International Ladies’ Garment Workers’ Union—under the leadership of manager Min Matheson (originally from Chicago)—soon came in to organize the shops, some of which were owned by organized criminals. Several protected labor-management battles resulted. Nevertheless, the union and the industry thrived until, beginning in the 1970s, globalization moved virtually all clothing manufacturing overseas. The talk will be highlighted by audio and video excerpts from some of the interviews and from some of the strikes that occurred.

FRANK LLOYD WRIGHT AND PRE-FABRICATION
Most of us are familiar with the dramatic designs of Frank Lloyd Wright for large residences and iconic commercial buildings. What many do not know is that over the course of his career, Wright experimented with the idea of economical pre-fabrication, beginning in 1911 with his "American System Built" homes in Milwaukee and ending with the Marshall Erdman pre-fabs in the 1950s. This course will trace the development of this idea over the course of Wright's career, and compare his work to others' of the same time period.

LIFE BOOK DISCUSSION
Discussion of the book, “Caste,” by Isabel Wilkerson. The Pulitzer Prize–winning, bestselling author of “The Warmth of Other Suns” examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. “As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.”

DECEMBER

LIFE BOOK DISCUSSION
Discussion of the book, “Stargazer,” by Anne Hillerman. Murder, deception, Navajo tradition, and the stars collide in this enthralling entry in New York Times bestselling author Anne Hillerman’s Leaphorn, Chee & Manuelito series, set amid the beautiful landscape of the American Southwest. What begins as a typical day for Officer Bernadette Manuelito—serving a bench warrant, dealing with a herd of cattle obstructing traffic, and stumbling across a crime scene—takes an unexpected twist when she’s called to help find an old friend.
Monday, January 10
1:00-2:30 p.m.
Location: Zoom Meeting Only
Moderator: Anne Rogalski (LIFE Program Manager)

MEAN GIRLS
MEAN GIRLS is a ferociously funny new musical from an award-winning creative team, including director Casey Nicholaw (Aladdin, The Book of Mormon), composer Jeff Richmond (“30 Rock,” “Unbreakable Kimmy Schmidt”), lyricist Nell Benjamin (Legally Blonde), and book writer Tina Fey (“30 Rock,” Bossypants). Vogue cheers, “MEAN GIRLS is HILARIOUS! The cast is sensational — expert comedians with fierce voices and acting chops to match.” Enjoy this entertaining musical from the dress circle of the Performing Arts Center in Appleton. After the show, review the performance over dinner at Pullman’s Restaurant. Registration fee includes coach bus, show ticket, and elegant dinner.
Sunday, January 23
Location: PAC
Field Trip: $165 LIFE Members/$185 Public (rows D—F)
$185 LIFE Members/$205 Public (rows A—C)
Presenter: Anne Rogalski (LIFE Program Manager, Former High School Musical and Play Director)

Interested in being entered into a drawing for a free Spring 2022 Membership? Eager to share the LIFE program with friends and family? If the answer to these questions is YES, then please read on!

LIFE members may bring guests for a one time “free” class. If the guest decides to become a member, both the veteran LIFE member and new LIFE member will be entered in a drawing for a LIFE membership.

What is LIFE? An “elevator pitch” follows:

- A membership-based association of nearly 400 adult learners providing an opportunity to share learning experiences and to discover new joys in life.
- There are no requirements to join this group of adult learners in their quest to be informed, to learn more, and to pursue their interests.
- LIFE offers 50-60 individual learning opportunities per semester, led by visiting experts, community leaders, UWSP faculty, and LIFE members.
- Included in the classes are opportunities for field trips to experience learning about area events, institutions, and activities.
- Classes include enthusiastic discussion between the presenters and participants.
- Cost: $50 for a semester membership
- Come join us!

HANK Talks
Knowledge sharing

UW-Stevens Point at Wausau is proud to announce the second season of our series—HANK Talks—that brings the knowledge and expertise of our talented faculty to the community that supports us. HANK Talks will take place and be streamed live from the stage in the James F. Vellini Theater in the UW Center for Civic Engagement, on the Wausau campus, utilizing the Lecture & Arts YouTube Live channel. After the live-stream, the archived Talk (and the entire series) will be accessible from the UW-Stevens Point at Wausau Lecture & Arts webpage.
