DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

- Only company in our industry with a carbon emissions target approved by the Science Based Target Initiative
- Our target aligns with global temperature rise limits necessary to avoid the most dangerous effects of climate change

"Sodexo is ahead of the competition in establishing an overall goal to reduce greenhouse gas emissions by 34 percent and quantifying the percentage of greenhouse gas emissions associated with climate-intensive foods."

— *Natural Resources Defense Council*

In 2020, named part of CDP's "A List", the only amongst our competitors.
