Alcohol and Drug Rights and Responsibilities

With every “right” comes responsibility and, as a member of the campus community, you are expected to respect others and follow the rules and policies established by the university community.

Students at the University of Wisconsin-Stevens Point (UWSP) are members of the University community as well as the larger surrounding community. Students have the responsibility to conduct themselves in a thoughtful and lawful manner and must comply with the UWSP’s student conduct standards. The State of Wisconsin does not allow alcohol consumption by anyone less than 21 years of age. UWSP has designed a comprehensive program to address violations of the institution’s alcohol and other drug policies. The sanctioning grid that follows is a guide for students to help them make informed decisions about their conduct involving substances, as well as provide a firm foundation for UWSP adjudicating officers. This document is a living document and will be reviewed annually to ensure its effectiveness and relevance.

Student conduct is of concern to more than the adjudicating officers—community members, neighbors, law enforcement, court system, and local health care practice are strongly in support of UWSP increasing responsibility for students. Further, UWSP, as part of its compliance with the Drug-Free School Act, will benefit from demonstrating an effort to treat similar cases similarly.

Sanctions may or may not be duplicated. Extensions for sanctions should be a maximum of one extension for 2 consecutive academic semesters.

Additional Information for Alcohol and Drug Violations

1. One semester is defined by ONE full academic semester not to include in Winterim or Summer Session. One full semester may not include the current semester in which the suspension is enacted.
2. Two semesters is specified as TWO consecutive academic semester not to include Winterim or Summer Session. Two full semesters may not include the current semester in which the suspension is enacted.
3. Four semesters is specified as FOUR consecutive academic semester not to include Winterim or Summer Session. Four full semesters may not include the current semester in which the suspension is enacted.

Sanctions--The following table indicates MINIMUMS as well as a list of possible enhancements based upon the incident:

Universal Prevention: Think About It Program; online education to be completed by all new students in Sept. (Oct. or Jan., Feb.) Failure to complete sanction results in a referral to the PACE program and a $100 course fee.

Intervention Strategies: Predetermined Alcohol and Drug Sanctions: The following table indicates MINIMUMS as well as a list of possible enhancements based upon the incident.*

*As each situation is unique, sanctions may be increased beyond the minimum, but would never be less than the minimum. Sanctions may or may not be duplicated.

Good Samaritan Guide

In cases of severe intoxication and/or alcohol/drug overdose, the primary concern is the health and safety of the individual(s) involved. If an intoxicated student is in need of medical assistance, it is the university’s priority to act without punitive consequence. In some cases, the intoxicated individual(s), or an individual/group who assists, may not be subject to action by the Dean of Students office.

This does not excuse or protect those who flagrantly or repeatedly violate University of Wisconsin System, UWSP Community Rights & Responsibilities Handbook, and/or the UWSP Residence Hall policies related to alcohol. The Good Samaritan guide is intended to apply to cases of alcohol or drug overdosing/emergency. If other infractions occur, such as assault or property damage, the clause does not apply.

Students or members of the community who observe a medical or other emergency are obligated to call for help. If the “Good Samaritan” who places a call for help is found to be in violation of a UWSP and/or housing policy, the fact that they placed the call will be considered a mitigating circumstance if sanctions are imposed on the Good Samaritan.

If the situation is deemed necessary by University Police, Protective Services or Stevens Point Police Department may be notified and respond to any situation.

The Dean of Students office is charged with implementing the necessary processes for the success of these minimum sanctions.

Minimum Readmission Requirements

If a student is to be readmitted to the University after nonacademic misconduct, specific re-enrollment conditions may apply before and after being accepted.

1. 12-month probation upon readmission
2. Assessment with outside agency and submitted to DOS before reacceptance
3. Any student that has been previously suspended for alcohol or drug related violations, and has been readmitted to UWSP, who then violates any alcohol or drug policy after readmission will be referred to the University Administrative Hearing Board for adjudication.

If you require medical transport due to substance abuse, you will be referred directly to the Dean of Students office.

Sanctions may include:

- University Discipline Probation
- Parental notification via phone call by Dean of Students office
- Substance use assessment
- Follow-up meetings with the Dean of Students

The illegal sale/distribution of drugs may result in a minimum suspension of 12 months for the first violation.

As each situation is unique, sanctions may be increased beyond the minimum, but would never be less than the minimum. Sanctions may or may not be duplicated.

Extensions for sanctions should be a maximum of one extension for 2 weeks. All other extensions must be cleared by the Dean of Students office.

When multiple violations exist, the student should be held accountable for all violations and applicable sanctions per this guide.
