[2011-2012] Explanation of Segregated Fees

Segregated fees are charges, in addition to instructional fees, assessed to all students for services, programs, and facilities that support the mission of the University of Wisconsin. Segregated fees are divided into allocable and non-allocable.

The allocable portion of segregated fees supports mainly student-organized activities, such as student government and student organizations. The non-allocable portion provides the main support for student-services operations and facilities, such as student health services and student centers. Students have the primary responsibility for the formulation of allocable segregated fee budgets, in consultation with the chancellor and subject to final confirmation by the Wisconsin Board of Regents. Final recommendations on non-allocable budgets rest with campus administration, although students have the opportunity to participate in the review process.

The following is a summary of your segregated fees and a short description of each fee comprising the total shown on your bill. Please note that the Health Enhancement Center fee is per person. The other fees, with the exception of Text Rental, are based on the number of credits taken, with 6 credits considered to be a fulltime load for calculation of the segregated fee. For Text Rental, you pay a per credit fee up to 12 credits, after which the fee stabilizes and remains at that level no matter how many credits are taken during that semester. Since graduate students do not use textbook rental, there is no Text Rental segregated fee assessed to them.
