This emergency guidebook has been prepared to provide CWES faculty, staff, students, and visitors with quick reference directions on emergency response. The purpose of this guide is to help ensure the safety of life and property at the University of Wisconsin-Stevens Point satellite facility, Central Wisconsin Environmental Station (CWES), in the event of an emergency or hazardous situation.

• Please start at the top of each topic section, read thoroughly and understand the steps to take before an emergency occurs.

• Keep this quick reference handy or post it where it is readily accessible such as hanging on the wall near your phone.

• Write personal notes and reminders in the blank sections of this guide.

This guide is only a summary of key emergency response steps. The full CWES Occupant Emergency Plan is available at the CWES Main Office.

If you are unsure of what to do in an emergency, contact your supervisor, the CWES Main Office, CWES Director or, if CWES staff are not present, use the Emergency Notification phone list to inform the staff.

All employees are required to follow these procedures and attend Emergency Management Plan training (contact your Supervisor).

HAZARDOUS MATERIALS RELEASE

RESPONSE
1. Stand clear and warn others to remain clear of the hazard. Use signage as necessary.
2. Isolate the release area and assess degree of hazard.
3. Based on assessment follow appropriate response procedures below.

If release does not represent a hazard beyond ordinary and immediate area:
• Instruct occupants to leave and secure immediate area.
• Arrange for clean up by trained and properly equipped CWES staff.
• Send waste materials to EHS Department. Contact EHS at 715-346-2320 for guidance.

  - Name and telephone number. Exact location of the spill.
  - Time. Type of incident. Materials involved.
  - Extent of injuries or threats to human health or the environment.
• If possible to do so safely, post signs or other warning outside the immediate spill area directing traffic away from spill so those exiting building do not go through the affected area. Avoid any action that might create a spark.
  DO NOT turn lights on or off.
• Consult Safety Data Sheets (SDS) for material released and determine appropriate hazardous material response.
• EHS Officer (715-346-2320) or Protective Services (715-346-3456) shall be called to assist assessing situation.
  DO NOT reenter building until authorized by incident command.
• If exposed to chemicals:

FIRED/WILDLAND FIRE

IF YOU DISCOVER SMOKE OR A FIRE
1. Pull fire alarm and follow General Evacuation Procedures.
   • Alert others to the location and nature of emergency. Remain calm.
   • If the exit is blocked or crowded, use a secondary exit.
   • Provide assistance to those with special needs, if able.
   3. Report to the pre-arranged gathering point.
   4. From a safe location, Call 9-1-1 with information about emergency.
      Your name
      CWES Address: 10186 Cty Rd MM, Amherst Junction
      5. Notify CWES Main Office at 715-346-2937.
      6. Do not reenter the building until authorized by the Fire Department.

Use the back of your hand to check if doorknobs are warm or hot.

DOORKNOB IS WARM OR HOT
Leave door closed and find an alternate route out of building.

DOORKNOB IS COOL
Ensure all room windows are closed, brace yourself against door. Open it slightly to check for presence of smoke or fire. If the hallway appears clear, exit building. If time permits, close windows and doors behind you. If all exits are blocked, go to the nearest safe room.

1. Close all doors and windows between you and the fire. Open windows only when necessary.
2. Call 9-1-1 and inform dispatcher of your situation and exact location.
3. Wet and place towels, blankets or similar materials around and under the door to prevent smoke from entering.
4. Check outside window for presence of rescue crews and signal them by hanging an object out the window (e.g., sheet, jacket).

IF CAUGHT IN SMOKE
1. Stay low. Smoke and gas kill more than fire.
2. Place a towel or cloth over your head and face. Wear something that can be easily discarded if it catches fire such as a blanket.
3. Breathe through the towel.

An active shooter is a person who is actively engaged in killing or attempting to kill people in a populated area.

In most cases active shooters use firearms and there is no pattern or method to their selection of victims. These situations are dynamic and evolve rapidly, demanding immediate deployment of law enforcement resources to stop the shooting and mitigate harm to innocent victims. Not all situations can be planned for, but there are some things that you can think about before a situation occurs that may help you under stressful conditions.

Quickly determine the most reasonable way to protect your own life by following one or more of the steps below.

1. **EVACUATE/RUN** (When an active shooter is in your vicinity)
   - Have an escape route and plan to a safe location
   - Leave your belongings behind
   - Keep your hands visible
   **CALL 9-1-1 WHEN IT IS SAFE TO DO SO**

2. **HIDE/LOCK OUT/LIGHTS OUT** (If evacuation is not possible)
   - Hide in an area out of the shooter’s view
   - Block entry to your hiding place and lock the doors. Turn off lights.
   - Silence your cell phone and/or pager. Remain quiet.
   **CALL 9-1-1 WHEN IT IS SAFE TO DO SO**

3. **TAKE ACTION** (A last resort AND only if your life is in danger)
   - As a last resort and only when your life is in imminent danger
   - Attempt to incapacitate the shooter
   - Act with physical aggression and throw items at the active shooter

**INFORMATION TO PROVIDE TO LAW ENFORCEMENT OR 9-1-1 DISPATCHER**
- Location of the active shooter
- Number of shooters
- Physical description of shooters
- Number and type of weapons held by shooters
- Number of potential victims at the location
**ACTIVE SHOOTER**

- Remain calm and follow instructions
- Put down any items in your hands (e.g., bags, jackets)
- Raise hands and spread fingers
- Keep hands visible at all times
- Avoid quick movements toward officers (e.g., holding on to them for safety)
- Avoid pointing, screaming or yelling
- Do not stop to ask officers for help or direction when evacuating, just proceed in the direction from which officers are entering the premises.

The first officers to arrive on scene will not stop to help injured. Expect rescue teams comprised of additional officers and emergency medical personnel to follow the initial officers. These rescue teams will treat and remove any injured persons.

Once you have reached a safe location, you will likely be held in that area by law enforcement until the situation is under control, and all witnesses have been identified and questioned.

Do not leave the safe location until law enforcement authorities have instructed you to do so.

**REMAINDER OF CWES COMMUNITY**

Upon notification of ACTIVE SHOOTER:
- **DO NOT** go near affected building(s).
- **Stay in safe location** and lock doors.
- Remain in safe location until notified by authorities (e.g., stay in secure classroom/office, cabin, etc.).
- Notify UW-Stevens Point Protective Services of situation (715-346-3456).
