THE UWSP FACILITY SERVICES NEWSLETTER

MAY, 2018

Thanks to your generous donations of food items and cash, T.E.A.M. was able to present The Cupboard with \$23.00 and 134.8 lbs. of non-perishable food items to benefit UWSP students in need. Thousands of students receive need-based financial aid and hundreds are enrolled in food assistance and WIC programs. Many more students encounter short-term financial emergencies and find themselves choosing between buying food and paying other bills. The Cupboard was created to help students meet their basic needs so that they can focus on succeeding in school.

The Cupboard is staffed by student volunteers. A committee of dedicated volunteers organize food drives, raise awareness, and recruit volunteers. If you'd like to get involved, please email Sage Lefebvre at sieococ@uwsp.edu.

Members of The Cupboard truly appreciated the donation at this time due to an increase in students that need to use the service. The Cupboard staff say that on average, from 60 to 100 students look to The Cupboard for assistance each week. Thank you T.E.A.M.!

With 5.4 million cases in more than 3.3 million people diagnosed annually, skin cancer is the most common form of cancer in the United States. Fortunately, skin cancer is also one of the most preventable forms of cancer and highly treatable when detected early.

May is Skin Cancer Awareness Month. Here are a few ways you can help raise awareness and save lives:

Share Your Story!

Have you been affected by skin cancer? During the month of May, please share your story on Facebook, Twitter and Instagram, and encourage your loved ones to share it, too. Please include the hashtag #MostCommonCancer in your post so we can follow along and create a powerful community of skin cancer champions.

Q: What did the custodian say after jumping out of the closet?
A: **SUPPLIES!**

Thanks to the hard work of Facility Services Maintenance staff, the Student Services Accounts Receivable and Bursar Office project is moving forward with great results! The work to combine both spaces allows a more intuitive flow for advising, payments, and accounting practices. Permanent office locations were added for eight full-time staff and up to four student workers along with an A/V supported conference room complete with break room amenities.
