### **SYLLABUS**

# CSD 836 Pediatric Auditory Habilitation/Rehabilitation University of Wisconsin AuD Consortium Program Spring 2022 MW 2:00-3:15 Room 234 in CPS, UWSP

Professor: Rebecca Henning, Ph.D., CCC-A

Office: 050, CPS

Phone: 715-346-2351 (office) E-mail: rhenning@uwsp.edu

Office Hours: Wednesday 3:30-4:30, Thursday 1:30-2:30, Friday 11-noon, & by appointment

Zoom and phone "office hours" appointments can also be arranged as needed, either during my regular office hours times or at other times. Please email or call me to schedule Zoom or

phone appointments.

**E-mail communication:** You are expected to check your school e-mail account at least once per weekday for any important class announcements. I typically reply to emails within two business days or sooner. I cannot guarantee that I will always check email on evenings and weekends, so please plan ahead to avoid last-minute weekend or late-night "emergencies".

You are not permitted to turn in an assignment late because you are waiting for a reply from me. If you've emailed me with reasonable advance notice (see later in this paragraph), but I haven't replied within the timeframe given above, there is a chance I did not receive your message. Please check your sent-mail to see if it was actually sent, and try re-sending it or calling me. If you are emailing a question within 1-2 days or less of the deadline, I may not have time to reply/answer before the deadline. (I will do my best to reply, but sometimes it's not possible if many urgent things come up at once). If I do not reply before the deadline, then you should submit your assignment by the deadline, using your best judgment to answer your question.

### **Prerequisites and Co-requisites:**

Hearing Science Hearing Assessment Pediatric Audiology Amplification I and II Implantable Devices

### **Required Textbook:**

- Comprehensive Handbook of Pediatric Audiology, 2<sup>nd</sup> ed., edited by Tharpe and Seewald and published by Plural Publishing (2017)
- Additional required and supplemental readings to be provided on the course Canvas website.

# **Course Description:**

Language and auditory development of children with hearing loss. Principles and techniques of amplification selection and fitting for children with hearing loss. Effect of hearing impairment on speech perception, production, language, literacy, and socio-emotional development. Communication and educational options, and re/habilitation of communication skills.

### **Credit Hour Policy Standard:**

This 3-credit class meets for one, 75-minute class period each week, and will have additional asynchronous, approximately 75-minute required activities each week. In addition to those activities, this course carries the expectation that students will work on course learning activities (reading, studying, viewing recorded lectures, working on assignments reviewing and organizing notes, preparing for class, etc.) for about 5 hours outside of the classroom per week. The information about class meeting times and expectations for student work are included in this syllabus.

### **Face Coverings:**

At all UW-Stevens Point campus locations, the wearing of face coverings is mandatory in all buildings, including classrooms, laboratories, studios, and other instructional spaces. Any student with a condition that impacts their use of a face covering should contact the <u>Disability and Assistive</u> <u>Technology Center</u> to discuss accommodations in classes. Please note that unless everyone is wearing a face covering, in-person classes cannot take place. This is university policy and not up to the discretion of individual instructors. Failure to adhere to this requirement could result in formal withdrawal from the course.

### **Student Privacy and Intellectual Property of Recorded Lectures:**

Lecture materials and recordings for this class are protected intellectual property at UW-Stevens Point. Students in this course may use the materials and recordings for their personal use related to participation in this class. Students may also take notes solely for their personal use. If a lecture is not already recorded, you are not authorized to record my lectures without my permission unless you are considered by the university to be a qualified student with a disability requiring accommodation [Regent Policy Document 4-1]. (You may contact me to request permission to record lectures).

Students may not copy or share lecture materials and recordings outside of class, including posting on internet sites or selling to commercial entities. Students are also prohibited from providing or selling their personal notes to anyone else or being paid for taking notes by any person or commercial firm without the instructor's express written permission. Unauthorized use of these copyrighted lecture materials and recordings constitutes copyright infringement and may be addressed under the university's policies, UWS Chapters 14 and 17, governing student academic and non-academic misconduct.

### **Course Format and Expectations:**

- This class will meet in person in the UWSP and UW-Madison distance rooms as much as possible. If we must meet remotely due to the pandemic or other unforeseen circumstances, please see the guidelines below.
- You are expected to attend class regularly. Although excused absences may be necessary more
  often than usual due to the pandemic, I expect they will still be reserved for circumstances such
  as illness, caring for someone who is ill, personal or family emergency, etc. Class absences should
  NOT be requested or used for routine or controllable circumstances like vacation, work,
  convenience, or errands.
- When attending a remote class, please remain attentive and engaged in the course. See below for additional information:
  - o If you would like to attend the remote class session but expect you may not be able to fully focus or participate (for example, if you are ill, or caring for someone who is ill, or caring for a dependent, etc.), please email me ahead of time if possible (or if it's not possible to email me ahead of time, then email me as soon as you reasonably can) to let me know about the situation.

- If you are unable to attend the remote class session, please email me ahead of time if possible, or as soon as you reasonably can. The information above about excused absences also applies to remote class sessions.
- Please do not try to attend a remote course while you are driving, or while you are doing anything else that requires your full attention for safety! Please plan your schedule so you can attend class from an environment that allows you to pay attention to class. If this is not possible on a particular day, please see the information above about requesting an excused class absence if necessary.
- Although I prefer you participate with video whenever possible in any remote class sessions (it helps me and everyone else to feel connected when we can see each other's faces! ②), if your video will create repeated or disruptive distractions for others during the session, please disable your own video while the distraction is present, or for the entire session if necessary. It is NOT very distracting (so no need to disable video) if a family member or pet occasionally or calmly appears in the background; however it IS visually distracting if you move around a lot, or if you move your camera a lot, or if your pet repeatedly jumps all over you throughout class, or if a family member keeps asking you questions. I understand these things may happen, but please disable your own video if they occur for longer than a brief time.
- In general, please mute your own audio unless you are speaking. There may be some occasions when, due to a faster pace of the discussion, it may be better to leave your audio un-muted, but most of the time it works best if everyone except the current speaker has their audio muted.

# **Student Requirements:**

### Personal situations and/or difficulty meeting course requirements:

If you are concerned that a family or personal situation may affect your ability to meet the class requirements, please discuss this with me (or with the graduate advisor or another faculty member on your home campus with whom you feel comfortable) so that we can be aware of the situation and figure out alternative arrangements if needed. It is far better to be proactive about discussing possible difficulties than to wait until your performance in the class has already suffered. I will not ask you for specific medical or personal information if you do not wish to share it; however, you will typically need to provide some type of documentation to at least one faculty member (either myself or the graduate advisor on your home campus) if a short-term accommodation is needed, or to the Disability Center on your home campus if ongoing or repeated accommodations are needed.

# You must complete <u>all</u> of the following in order to pass this course:

### **Class Preparation:**

Please come to class sessions prepared and ready to contribute to the day's activities.

### <u>Classroom Etiquette, Professionalism, & Attendance</u>

As doctoral students, I expect you to be prepared for class, and to regularly attend class (including any remote classes) with an attitude of respect, engagement, and professionalism. <u>I expect you to behave respectfully toward everyone in the class and myself.</u>

<u>Assignments</u>: You are required to participate in class activities and to complete all assignments on time. See the separate assignment descriptions and general grading information document for more information.

# **Accommodations for Disability or Health Condition:**

If you have a short- or long-term disability or health condition that requires accommodations, please contact the Disability Center on your home campus.

## **Religious Observances:**

I will accommodate religious beliefs according to UWS 22.03 if you notify me within the first three weeks of the semester regarding specific dates that you will need to change course requirements.

# **Academic Misconduct:**

I expect all students to follow the course requirements for academic honesty. If you are tempted by academic dishonesty, I recommend you ask yourself why (Are you having trouble meeting an assignment deadline? Are you struggling to understand some course material? Are you having trouble understanding why an assignment is relevant or important?), and then address that underlying cause. For example, let me know you're having one of those problems, and we can discuss some possible solutions. You might also ask other AuD students for advice on those problems.

The policies that apply to all UW System students and faculty regarding academic misconduct can be found here: <a href="file://C:/Users/audsk/AppData/Local/Temp/14.pdf">file://C:/Users/audsk/AppData/Local/Temp/14.pdf</a>. You are also responsible for reviewing and understanding all of the information about avoiding plagiarism at this link, especially the information on successful and unsuccessful paraphrases:

<a href="https://writing.wisc.edu/handbook/assignments/quotingsources/">https://writing.wisc.edu/handbook/assignments/quotingsources/</a>.

### **Grading:**

Your *percent correct* (*not* total number of points) on the assignments will be weighted as follows for your final class grade:

Assignment #1 (speech/language screening): 20%
Assignment #2 (dB HL and SPL calculations): 10%
Assignment #3 (HA and FM verification lab): 20%
Assignment #4 (HA case questions): 20%
Assignment #5 (AR needs and goals): 30%

### **Grading Scale**

<b>UW – SP</b> Letter Grade	А	A-	B+	В	B-	C+	С	C-	D+	D	F
Percentage	100- 92	91.9- 90	89.9-88	87.9-82	81.9-80	79.9-78	77.9-72	71.9-70	69.9-68	67.9-60	<60
UW – Madison Letter Grade	А	А	-В	В	B.	-C	С	C-	-D	D	F

ASHA Standards/Competencies: The following American Speech-Language-Hearing Association (ASHA) Council for Clinical Certification (CFCC) 2020 standards for the Certificate of Clinical Competence in Audiology (CCC-A) are partially or fully covered in this course (see table below). For standards that are partially covered, the portion covered in this class is bolded.

The student will demonstrate knowledge of (for items lettered	Method of Assessing
A) and knowledge and skills in (for items lettered B-F):	Competency
A3. Language and speech characteristics and their development for	Passing grade on speech-language
individuals with normal and impaired hearing across the life span	screening assignment, and
	Passing grade on AR needs and
A.7. Applications and limitations of applification of a position and	goals assignment
A7. Applications and limitations of specific audiologic assessments and	Passing grades on all assignments,
interventions in the context of overall client/patient management	excluding speech-language
AQ Implications of cultural and linguistic differences, as well as	Screening
A8. Implications of cultural and linguistic differences, as well as	Passing grades on speech-language
individual preferences and needs, on clinical practice and on families,	screening assignment, and
caregivers, and other interested parties	Passing grade on hearing aid case
	assignment, and Passing grade on AR needs and
	goals assignment
A9. Implications of biopsychosocial factors in the experience of and	Passing grades on speech-language
adjustment to auditory disorders and other chronic health conditions	screening assignment, and
adjustifient to additory disorders and other chronic health conditions	Passing grade on hearing aid case
	assignment, and
	Passing grade on AR needs and
	goals assignment
A10. Effects of hearing impairment on educational, vocational, social,	Passing grade on hearing aid case
and psychological function throughout the life span	assignment, and
and poyenting sour remotion time agricult the time span	Passing grade on AR needs and
	goals assignment
A11. Manual and visual communication systems and the use of	Passing grade on AR needs and
interpreters/transliterators/translators	goals assignment
A12. Effective interaction and communication with clients/patients,	Passing grade on AR needs and
families, professionals, and other individuals through written, spoken,	goals assignment
and nonverbal communication	
A13. Principles of research and the application of evidence-based	Passing grades on all assignments
practice (i.e., scientific evidence, clinical expertise, and client/patient	
perspectives) for accurate and effective clinical decision making	
A14. Assessment of diagnostic efficiency and treatment efficacy	Passing grades on all assignments
through the use of quantitative data (e.g., number of tests,	
standardized test results) and qualitative data (e.g., standardized	
outcome measures, client/patient-reported measures)	
A16. Principles and practices of client/patient/person/family-centered	Passing grade on hearing aid case
care, including the role and value of clients'/patients' narratives,	assignment, and
clinician empathy, and shared decision making regarding treatment	Passing grade on AR needs and
options and goals	goals assignment
A17. Importance, value, and role of interprofessional communication	Passing grade on AR needs and
and practice in patient care	goals assignment
A18. The role, scope of practice, and responsibilities of audiologists	Passing grade on speech-language
and other related professionals	screening assignment, and

	Descing grade on AD not all and
	Passing grade on AR needs and
440 11 111	goals assignment
A19. Health care, private practice, and educational service delivery	Passing grade on AR needs and
systems	goals assignment
A21. Advocacy for individual patient needs and for legislation	Passing grade on hearing aid case
beneficial to the profession and the individuals served	assignment, and
	Passing grade on AR needs and
	goals assignment
B10. Identifying persons at risk for speech-language and/or cognitive	Passing grade on speech-language
disorders that may interfere with communication, health, education,	screening assignment, and
and/or psychosocial function	Passing grade on AR needs and
	goals assignment
B11. Screening for comprehension and production of language,	Passing grade on speech-language
including the cognitive and social aspects of communication	screening assignment, and
	Passing grade on AR needs and
	goals assignment
B12. Screening for speech production skills (e.g., articulation, fluency,	Passing grade on speech-language
resonance, and voice characteristics)	screening assignment, and
resonance, and voice characteristics)	Passing grade on AR needs and
	goals assignment
P12 Peferring persons who fail the careening for appropriate speech	
B13. Referring persons who fail the screening for appropriate speech-	Passing grade on speech-language
language pathology consults, medical evaluation, and/or services, as	screening assignment, and
appropriate	Passing grade on AR needs and
	goals assignment
E1. Engaging clients/patients in the identification of their specific	Passing grade on speech-language
communication and adjustment difficulties by eliciting client/patient	screening assignment, and
narratives and interpreting their and/or caregiver-reported measures	Passing grade on AR needs and
	goals assignment
E2. Identifying the need for, and providing for assessment of,	Passing grade on speech-language
concomitant cognitive/developmental concerns, sensory-perceptual	screening assignment, and
and motor skills, and other health/medical conditions, as well as	Passing grade on AR needs and
participating in interprofessional collaboration to provide	goals assignment
comprehensive management and monitoring of all relevant issues	
E3. Responding empathically to clients'/patients' and their families'	Passing grade on speech-language
concerns regarding communication and adjustment difficulties to	screening assignment, and
establish a trusting therapeutic relationship	Passing grade on AR needs and
	goals assignment
E4. Providing assessments of family members' perception of and	Passing grade on speech-language
reactions to communication difficulties	screening assignment, and
	Passing grade on AR needs and
	goals assignment
E5. Identifying the effects of hearing problems and subsequent	Passing grade on hearing aid case
communication difficulties on marital dyads, family dynamics, and	assignment, and
other interpersonal communication functioning	Passing grade on AR needs and
Total anterpersonal communication functioning	goals assignment
E6. Engaging clients/patients (including, as appropriate, school-aged	Passing grade on hearing aid case
children/adolescents) and family members in shared decision making	assignment, and
regarding treatment goals and options	Passing grade on AR needs and
	goals assignment

E7. Developing and implementing individualized intervention plans	Passing grade on hearing aid case
based on clients'/patients' preferences, abilities, communication	assignment, and
needs and problems, and related adjustment difficulties	Passing grade on AR needs and
niceus and problems, and related adjustment difficulties	goals assignment
EQ Selecting and fitting appropriate amplification devices and assistive	
E8. Selecting and fitting appropriate amplification devices and assistive	Passing grade on dB HL and dB SPL calculations assignment, and
technologies	
	Passing grade on hearing aid and
	FM verification lab, and
	Passing grade on hearing aid case assignment
E9. Defining appropriate electroacoustic characteristics of	Passing grade on dB HL and dB SPL
amplification fittings based on frequency-gain characteristics,	calculations assignment, and
maximum output sound-pressure level, and input—output	Passing grade on hearing aid and
characteristics	FM verification lab
E11. Conducting real-ear measurements to (a) establish audibility,	Passing grade on hearing aid and
comfort, and tolerance of speech and sounds in the environment and	FM verification lab
(b) verify compression, directionality, and automatic noise	
management performance	
E15. Counseling cochlear implant candidates and their families	Passing grade on AR needs and
regarding the benefits and limitations of cochlear implants to (a)	goals assignment
identify and resolve concerns and potential misconceptions and (b)	
facilitate decision making regarding treatment options	
E16. Providing programming and fitting adjustments; providing	Passing grade on AR needs and
postfitting counseling for cochlear implant clients/patients	goals assignment
E17. Identifying the need for—and fitting—electroacoustically	Passing grade on hearing aid and
appropriate hearing assistive technology systems (HATS) based on	FM verification lab, and
clients'/patients' communication, educational, vocational, and social	Passing grade on hearing aid case
needs when conventional amplification is not indicated or provides	assignment
limited benefit	_
E19. Ensuring compatibility of HATS when used in conjunction with	Passing grade on hearing aid and
hearing aids, cochlear implants, or other devices and in different use	FM verification lab
environments	
E21. Providing auditory, visual, and auditory–visual communication	Passing grade on AR needs and
training (e.g., speechreading, auditory training, listening skills) to	goals assignment
enhance receptive communication	
F1. Counseling parents to facilitate their acceptance of and adjustment	Passing grade on hearing aid case
to a child's diagnosis of hearing impairment	assignment, and
<u> </u>	Passing grade on AR needs and
	goals assignment
F2. Counseling parents to resolve their concerns and facilitate their	Passing grade on hearing aid case
decision making regarding early intervention, amplification, education,	assignment, and
and related intervention options for children with hearing impairment	Passing grade on AR needs and
	goals assignment
F3. Educating parents regarding the potential effects of hearing	Passing grade on AR needs and
impairment on speech-language, cognitive, and social–emotional	goals assignment
development and functioning	
F4. Educating parents regarding optional and optimal modes of	Passing grade on AR needs and
communication; educational laws and rights, including 504s,	goals assignment
individualized education programs (IEPs), individual family service	
plans (IFSPs), individual health plans; and so forth	
1 27: ::: 8: ***	

F5. Selecting age/developmentally appropriate amplification devices and HATS to minimize auditory deprivation and maximize auditory	Passing grade on hearing aid and FM verification lab, and
stimulation	Passing grade on hearing aid case assignment
F6. Instructing parents and/or child(ren) regarding the daily use, care,	Passing grade on hearing aid and
and maintenance of amplification devices and HATS	FM verification lab, and
	Passing grade on hearing aid case assignment
F7. Planning and implementing parent education/support programs	Passing grade on AR needs and
concerning the management of hearing impairment and subsequent	goals assignment
communication and adjustment difficulties	
F8. Providing for intervention to ensure age/developmentally	Passing grade on AR needs and
appropriate speech and language development	goals assignment
F9. Administering self-assessment, parental, and educational	Passing grade on AR needs and
assessments to monitor treatment benefit and outcome	goals assignment
F11. Counseling the child with hearing impairment regarding peer	Passing grade on AR needs and
pressure, stigma, and other issues related to psychosocial adjustment,	goals assignment
behavioral coping strategies, and self-advocacy skills	
F13. Providing interprofessional consultation and/or team	Passing grade on AR needs and
management with speech-language pathologists, educators, and other	goals assignment
related professionals	

A passing grade is a B or better. If a student fails to complete any of the tasks listed above, they will work with the course instructor to either redo the task or complete an additional task in order to demonstrate competency. If a student is not able to successfully complete this task, then an improvement plan will be initiated to remediate the skill in question. See the handbook section on improvement plans.

# **Tentative Course Schedule**

Required readings from the textbook and other sources will be posted in Canvas for each topic. For the required textbook, only the assigned chapter or page number(s) will be posted in Canvas, and you are responsible for having a copy of the textbook. For other readings, the document itself will be posted in Canvas.

Week	Topic
January 24-26	Introduce the class; Auditory skill development; speech acoustics; speech perception; speech, language, & auditory development in children with HL;
	Communication modes
January 31-	Communication modes; Auditory skill development; speech acoustics; speech
February 2	perception; speech, language, & auditory development in children with HL
February 7-9	Finish auditory and speech/language development?
	Early intervention, & hearing assessment for fitting HAs on infants & young
	children; RECD for assessment
<b>February 14</b> -16	Assignment #1: Speech/language screening due by 2 pm Feb. 14
	HA verification & RECD; DSL/Prescriptive Procedures
February 21-23 Assignment #2: dB HL and dB SPL calculations due by 2 pm Feb. 21	
	FM & ALDs
February 28-	Choosing amplification technology and features for children
March 2	

March 7-9	Choosing technology & features for children; troubleshooting; counseling			
	parents on HA use			
<b>March 14</b> -16	Assignment #3: HA and FM verification lab due by 2 pm March 14			
	No class meeting: spring break for Madison			
	SP students view recorded lectures or other required course activity			
	Topic is TBD			
March 21-23	No class meeting: spring break for Stevens Point			
	Madison students view recorded lectures or other required course activity			
	Topic is TBD			
March 28-30	Counseling parents on HA use; Measuring hearing aid outcomes with children			
April 4-6	Assessing AR needs for different ages, including specific tools; multidisciplinary			
	assessment			
<b>April 11</b> -13	Assignment #4: HA case questions due by 2 pm April 11			
	Finish assessing AR needs; start family-centered AR and coaching			
April 18-20	Family-centered AR & coaching			
April 25-27	Family-centered therapy & coaching at different ages;			
	AR for children with CAPD			
May 2-4	AR for children with CAPD			
May 9	Assignment #5: AR needs and goals due by 2 pm
