Course Overview

Education 714 is a course designed for self-directed study in a field of interest, similar to an independent study. Together the student and professor will create the learning outcomes by designing activities and assessments that evidence the learning in the course. The outcomes can be evidenced and measured in a variety of ways (i.e. reading a book and writing a paper or doing research and creating a graphic representation of the results). This is a fun and exciting course designed to meet your personal or professional interests.

Course Objective:

Education 714 is a course designed to allow students the opportunity to build their own learning experience and outcomes. The course design is completed collaboratively with the instructor, and the final course grid with the description of the course must meet designated guidelines for assessment and rigor.

Learner Outcomes:

Students will be able to:

- Identify and demonstrate the attainment of knowledge, skills or dispositions that would enhance a personal or professional interest.
- Complete a course grid with learning outcomes and assessments.
- Follow through on an independent project and/or learning goal (s).
- Provide evidence of learning through a completed assessment.
- Complete professional development on a topic or interest in a field of study.

The drop box deadline for all assignments for this course are clearly labeled in Canvas.

Coursework

In this course, the student is responsible for the learning outcomes, activities, and assessments for the course. A course grid is collaboratively developed with the professor Graduate students should consider what type of work is comparable to other graduate courses they have taken in our master's program and design their course grid accordingly. In this course, the instructor has the prerogative to increase the level of rigor expected of the student while developing the

course grid or before approving the final course grid. Students should have a developed concept of their graduate project prior to scheduling their independent meeting with the course professor. The course professor is a great resource if you need ideas for a project or for developing your course content. Please feel free to ask for suggestions if you need help on your course grid, or if you do not understand how to evidence your work in this course. Graduate students could select studies and/or topics from the following list. This list is not an exhaustive list, but it helps give ideas of what you might select for this course. Most of these items are completed in some combination to meet the rigor of the course.

- 1) Professional interest
- 2) Professional development
- 3) Professional conference or presentation
- 4) Research
- 5) Professional readings/writing
- 6) Comprehensive project
- 7) Program development
- 8) Curriculum development
- 9) Conducting or participation in professional training
- 10) Practicum/Internship
- 11) Site Visits
- 12) Other

Community of Learners

My goal, as the professor of this course, is to establish a culture that is inclusive, respectful, honest and caring. In order to create this community of learners, we should remain open to new ideas, actively listen and be mindful of the diversity in our modern world. As a community, we aim to be respectful to all citizens in this class, regardless of race, ethnicity, religion, gender or sexual orientation. Please remember that professional behavior is expected at all times in the classroom. .

UWSP Community Bill of Rights and Responsibilities

UWSP values a safe, honest, respectful and inviting learning environment. In order to ensure that each student has the opportunity to succeed, a set of expectations have been developed for all students and instructors. This set of expectations is known as the Rights and Responsibilities document, and it is intended to help establish a positive living and learning environment at UWSP. For information go to:

<http://www.uwsp.edu/stuaffairs/Pages/rightsandresponsibilities.aspx>

The rights and responsibilities document also includes the policies regarding academic misconduct, which can be found in Chapter 14. A direct link can be found here:

American with Disabilities Act

The American Disabilities Act (ADA) is a federal law requiring educational institutions to provide reasonable accommodations for students with disabilities. For more information about UWSP's policies, check here:

<http://www.uwsp.edu/stuaffairs/Documents/RightsRespons/ADAPolicyinfo.pdf>

If you have a disability and require classroom and/or exam accommodations, please register with the Disability and Assistive Technology Center and then contact me at the beginning of the course. I am happy to help in any way I can. For more information, please visit the Disability and Assistive Technology Center located on the 6th floor of the Learning Resource Center (Library). You can also find more information here:
