Aaron's Brief Biography: I am a native of Sheboygan, Wisconsin. I received a B.S. degree in Physics and Mathematics from UW-Eau Claire and my M.S. and Ph.D. in Astronomy from UW-Madison. Before moving into teaching I worked as a postdoctoral research scientist at both Penn State and NASA's Spitzer Science Center (located on Caltech's campus). I am interested in understanding the multi-wavelength properties and evolution of super-massive black holes in the centers of galaxies.

Grading - Your final grade will be based on the following grading scheme:

- Classroom Participation – 3%
- Homework Quizzes – 12%
- Laboratory Experiments – 15%
- Midterm Exams (3) – 15% each
- Comprehensive Final Exam – 25%

The grading scale is as follows:

$93\% \leq A$	$80\% \leq B- < 83\%$	$67\% \leq D+ < 60\%$
$90\% \leq A- < 93\%$	$77\% \leq C+ < 80\%$	$60\% \leq D < 67\%$
$87\% \leq B+ < 90\%$	$73\% \leq C < 77\%$	F < 60%
$83\% \leq B < 87\%$	$70\% \leq C- < 73\%$	

Homework - Homework problems will be distributed at the beginning of the semester. Approximately 18-20 homework problems will be assigned each week. To encourage you to do your homework, a weekly homework quiz will be given during the day the discussion section is scheduled.

Exams - There will be three mid-term exams in addition to a comprehensive final exam. The mid-term exams are online, 1 hour tests. You will be allowed to use your textbook, your personal notes, the constant sheet provided by the instructor, and a scientific calculator.

Final Exam - The final exam is scheduled for May 19 from 8:00 – 10:00 a.m.. This will be a comprehensive final exam. You will be allowed to use your textbook, your personal notes, the constant sheet provided by the instructor, and a scientific calculator.

CLASSROOM CONDUCT

To make the classroom environment more conducive to learning the following list of rules will be enforced in all lectures and labs.

Talking - Questions for the instructor are always encouraged. In lecture, asking a neighbor a quick question to clarify a point made in class is acceptable, conversations unrelated to the course material are not. In lab (and in some peer activities in lecture) discussions are encouraged, but please try to stay on-topic as a courtesy to your lab partners and neighbors.

MISCELLANEOUS ITEMS

Additional Resources - There are additional resources available outside of the classroom that everyone can access if they desire additional help.

- Please feel free to stop in my office with any questions you may have.
- If you believe that your textbook isn't clear on a certain topic, try reading how that topic is presented in a textbook written by another author. Alternative textbooks are available in the physics study area (Room 384).
- Physics and Math tutoring is available online through the main campus.

Academic Misconduct - It is each student's responsibility to know the University of Wisconsin System's policy on Academic Misconduct. Any cheating will invoke disciplinary action. You can download and review the policy from the following website:
