**Course Overview**

Sociology is the scientific study of human society. This course provides a general introduction to this discipline. It is intended to increase your understanding of social interaction, social organization, social institutions, and social change in a systematic way, i.e., the sociological perspective. We will engage in the sociological perspective through exploring a number of themes. Students will be introduced to major theoretical perspectives, as well as key concepts, such as culture, socialization, and social interaction. Students will also come to understand the nature of major social institutions, such as marriage and family, government, and health care. They will also be introduced to social inequality, which has historically been explored along the dimensions of gender, race, and social class. Understanding sociology helps discover and explain social patterns and see how such patterns change over time and in different settings. By making vivid the social basis of everyday life, sociology also develops critical thinking by revealing the social structures and processes that shape diverse forms of human life. This course will challenge you to examine, evaluate, analyze, and appreciate the complex and diverse world we live in.

This course fulfills the requirement for “Social Sciences” and “U.S. Diversity” in the General Education Program (GEP).

<b>GEP Category:</b>	<i>Upon completing this requirement, students will be able to:</i>

**Discussions (40% at 10 % each)**

There are 4 discussion posts, due according to the Course Outline by 11:59pm (see below). Be sure to answer the questions in an in-depth, well-thought-out manner. Each week discussion is worth 10 points. The main post(s) is 6 points and provide at least one reference to the course material, such as the textbook (use APA or ASA in-text citation and reference style).

Engage in on-going, productive conversation with minimum of two of your classmates (up to 4 points) throughout the week.

quiz to assess students' ability to think critically. Critical Thinking Module can be found in Canvas

### **Online Classroom Etiquette**

The online classroom is a learning environment and community, and as such, it is expected that students do their best to minimize disruptions that can distract from their learning and that of their peers.

### **Academic Integrity**

Academic integrity is central to the mission of this institution. Academic dishonesty in any form will not be tolerated and will receive disciplinary sanctions per the UWSP policies. The UWSP policies regarding student academic standards and disciplinary procedures can be found here: <http://www.uwsp.edu/stuaffairs/Documents/RightsRespons/SRR-2010/rightsChap14.pdf>. These differences include race/ethnicity, gender, class, political view, religion, color, national origin, sexual orientation, disability, age, marital or family status, as well as personality, learning styles, and life experiences. We expect that students, faculty, administrators, and staff will respect differences and demonstrate diligence in understanding how other peoples' perspectives, behaviors, experiences, and worldviews may be different from their own.
