- ◆ Spelling and grammar should be checked prior to submitting assignments and discussion posts. Please do not rely on spell and grammar check as your only editorial tools.
- ◆ When outside sources are used, information must be cited properly in APA format, and ALL references must appear in a reference list at the end of the paper in APA format.
- ◆ Points will be deducted for assignments that are turned in late. Assignments will not be accepted if they are turned in more than two weeks past their due date. If extensions are needed on assignments, this must be discussed with the instructor prior to the due date.

ASSISTANCE WITH ASSIGNMENTS

I am happy to meet with you to discuss assignments. We can do this in person, by phone, or by e-mail. If you want to meet in person, you may stop in during office hours or we can set up another time that works for both of us.

LATE PAPERS/MISSED EXAMS/INCOMPLETES

Students are expected to complete course work by the date that it is due. You are responsible for contacting me to negotiate for any alternate dates. You must do this **BEFORE THE DUE DATE**. The same process is necessary to request an incomplete. Requesting an extension does not automatically mean that you will receive one.

PLAGIARISM

Plagiarism—using words or ideas of another person without citation—will result in a failing grade for the course and may lead to other disciplinary action. Any quotation, specific fact, or major idea taken from a book, article, or other source, must be cited with its page number within your paper, as well as being included in your reference list at the end of the paper. If you do not do this, it is plagiarism.

DISABILITIES/SPECIAL NEEDS

If you have special needs that affect your participation in the course, please notify me. I will ensure that you have the necessary accommodations with instruction and/or examinations. You are encouraged to contact me as early in the semester as possible to discuss special needs. You may also seek assistance at the Disability Services office, which is located in room 609 of the Learning Resource Center. More information about disability services is available at their website: <http://www.uwsp.edu/disability/Pages/students/studentInformation.aspx>.

CONFIDENTIALITY

Since personal information may be revealed during the course of this class, confidentiality is of utmost importance. We will be discussing case examples about real people and will be sharing information about ourselves for the purpose of practicing social work skills. Students are expected to hold confidential any personal information shared in class and in practice counseling sessions, with the exception of sharing with the instructor for consultation purposes and if concerns arise beyond the student's capacity to manage. Writing assignments will be viewed only by the instructor. Personal information will be held confidential by the instructor unless information shared implies a threat of harm to the student, another person, or reveals academic misconduct.

GROUND RULES FOR CLASS PARTICIPATION

- ◆ We are working to develop knowledge, skills, and values that are consistent with social work in this class. We all have misinformation, and sometimes prejudices, about groups of people. One of the goals of this class is to learn accurate information that will help us change prejudice and discrimination--our own and that of others. In order to do this, we need to practice changing what we say after we have learned that we have misinformation. We need to practice not blaming people for their positions in life. We need to find accurate information about all people and actively work against myths and stereotypes that exist about people.
- ◆ We need to share information about ourselves for this course. No one is expected to be perfect. Everyone is expected to try. This involves some risk taking. I want to make this classroom a safe place to practice this kind of risk taking. Students are expected to assist in attaining this goal.
- Demonstration of ethical behavior is expected in all aspects of academic performance. Professional/ ethical behavior is expected to be displayed during class and in the completion of assignments. Social workers work with vulnerable populations who must be able to depend on the ethical standards of behavior from the professionals from whom they seek assistance.
- Students are expected to **attend class** and **read all assignments** before attending the class for which they are assigned. It is imperative that you **attend every class session** due to the way the class is structured. If you miss class, you will not only impede your own learning, but also the learning of others.
- Students should be prepared to take part in discussion, experiential, and written assignments in class.
- Students are expected to spend time outside of class conducting assigned interviews and other assignments.
- Laptop use and cell phone use, including texting, is forbidden during class.
*If there is a specific reason why you need a laptop or phone during a particular class please see me to discuss this.

Client Documentation Assignment Details: (Competency 1)

DAC Documentation

- You will use the “DAC” documentation format outlined in the Cournoyer text to organize and document aspects of the counseling process with your assigned client. After your second session, you will organize the descriptive information of your client. After your third session, you will complete the assessment portion, and after your fourth session, you will complete the contract portion. The contract portion includes an evaluation component in which you will detail the means by which you and the client will evaluate progress and your practice as a social worker.
- Detailed instructions and examples are posted on the home page of Canvas.
- Submit your documentation to Canvas by the times and dates indicated in the syllabus.

Progress Recordings

- A Progress recording is a tool used to examine the dynamics of a particular interaction in time. The progress recording is an excellent teaching device for learning and refining interviewing and intervention skills. For two of the later sessions with your “client” you will complete a “Progress Recording,” as detailed in the Cournoyer text.
- Further instructions are posted in Canvas.

Closing Summary

- For the last session, you will complete a “Closing Summary,” as detailed in the Cournoyer text. The closing summary includes a section on evaluation, in which you will evaluate your client’s progress as well as your own practice. Detailed instructions are posted on the home page of Canvas.

Social Worker Interview Assignment Details: (Competency 1)

- Choose an area of social work that you would like to know more about. Identify a social worker working in that area that you would like to interview (this person should be certified as a social worker and/or have a degree specifically in social work). This person should not be a close relative or friend; this assignment aims to help you practice your professional interviewing skills. The interview must be in-person.
- Consider calling to schedule an interview as soon as possible, as it may take some time to secure one. When you call to schedule, present yourself as professionally as possible. Share that you are doing this as part of a class assignment but that you also have an interest in their area of social work as a possible career path. Give them a sense for what the interview will involve, how long it will be, and how helpful they could be to your learning process. Have your schedule in front of you when you call so that you can easily identify a time that works for both of you. Offer to travel to their workplace for the interview.
- Outline a 30-minute interview. Your outline should include both the process of the interview (HOW you will go about it) and the questions you plan to ask. Completing an outline will help you prepare for the interview and can be used as a guide during the interview.
- Following the interview, write a paper that focuses on the process of the interview (what occurred) as it relates to concepts/skills discussed in class. To do this adequately, you will likely need 5-6 pages. Please include the following:
 1. date of the interview
 2. name, degree, credentials, agency, and job title of the social worker
 3. your preparation for the interview—refer to preparing skills discussed in class
 4. the setting where the interview took place and how the setting impacted the interview
 5. what happened during the meet, seat, and greet portion of the interview
 6. how you introduced yourself in the role of social work student
 7. how you clarified the purpose of the interview
 8. how you established a relationship/rapport with the social worker
 9. a brief summary of what you discussed
 10. the interview techniques that you used—relate to techniques discussed in class and describe
 11. the interview techniques that the social worker used—relate to techniques we discussed in class and describe
 12. what transitions took place and what they were like
 13. what non-verbal communication took place—remember nonverbal is about more than just body language
 14. what diversity issues were present between you and the social worker and how they impacted the interaction—think of diversity in a broad sense
 15. how the interview was ended—what you did to facilitate a smooth ending
 16. a summary of what the experience was like for you- feelings, thoughts- both personal and professional
