https://paleodiatom.com Website:

The primary purpose of student teaching is to offer a carefully mentored experience to develop and enhance the knowledge, skills, and dispositions necessary to positively impact student learning and development. This field experience is a cooperative endeavor between the host school faculty, the university and you. Specifically, student teaching experience should connect theory to practice by:

- thinking, talking, and writing critically about teaching and learning in a real-world context:
- understanding school cultures and communities, with a focus on diversity within these settings;
- creating a beginning sense of self as a teacher;
- building professional relationships.

You are encouraged to maintain an open line of communication with your supervisor and cooperating teacher at all times. In addition, it is expected that you be actively engaged in the classroom at all times during your student teaching experience. Co-teaching is the encouraged model for instruction.

During your student teaching, you are expected to maintain a high level of professionalism. You are expected to communicate regularly with your cooperating teacher and your university supervisor. Problems are best handled before rather than later they escalate.

Absences: The School of Education expects that you are absent for no more than three days during the semester due to illness. You are expected to prepare sub plans in the event of your absence and communicate with your cooperating teacher on the procedures for "calling in." Please refer to the student teacher handbook for more details.

THE REQUIREMENTS FOR THE COURSE ARE AS FOLLOWS. All forms/templates are posted on Canvas.

REQUIREMENT(S)		DETAILS	DATE/TIME DUE
	Student Teacher Information Form	Appendix 1. Please complete to the best of your knowledge. If a room number changes please inform me.	First week of classes
	Statement of Expectations	Appendix 2: Written plan for student teaching experience including: schedules, duties, specific subject areas, lesson formats, groupings, evaluation plan, etc.	Second week of classes
	Weekly Reflection	Appendix 3: Focus of your reflections should be on the InTASC Standards. 1-2 standards should be identified and addressed in each reflection in addition to addressing: what were your successes, challenges, what would you do differently, etc. Examples of student reflections are posted on CANVAS. These should be at least a page in length.	Sunday @ midnight, uploaded to CANVAS (Reflection Week # Last name)
	Weekly Lesson Plans	Appendix 3: These lesson plans need to be an outline format addressing: What, Why, How and Assessment. A template is provided on CANVAS	Sunday @ midnight, uploaded to CANVAS (LP Week #_Last name)
	Review CT Evaluation Form	Sit down with your cooperating teacher and look through the evaluation form. Ask CT to highlight areas where you have strengths and areas for improvement	$5^{ m th}$ week of placement
	Observations	Pre-observation Send a copy of your lesson plan including handouts, presentations, etc. at least 24 hours prior to delivery of the lesson. Fill in how you will address each Teacher Standard during the lesson (see template on CANVAS)	4 /semester (2 each quarter if 2 placements)
		Lesson plans Appendix 4: Use the School of Education lesson plan template	4 / semester
		Reflection Submit a 1-2 paragraph reflection on your thoughts regarding the lesson (i.e. what went well, how could you improve, etc.)	4 / semester, due one week after observation

Post observation conference

	A post observation conference will be held within 48 hours of the delivery of the lesson via skype, google hangout or email. See post observation reflection paragraph.	4 / semester, due within 48 hours of each lesson
	Supervisor Evaluation Appendix 5: Formative assessments will be provided 2 days following video reflection submission	4 / semester
First classroom visit	Will contact CT first week. Learn the context for learning (i.e. school culture and student background, IEP/504 students, student/faculty names, school policies).	Second week of classes
Summative evaluations	Your cooperating teacher should submit a summative evaluation within 1 week of the end of your student teaching. Please ask your CT for a preliminary evaluation to upload to your portfolio prior to the final seminar class on May 12. See student handbook for the evaluation template.	Within 1 week of the end of your student teaching, original mailed to the Office of Field Experiences
Capstone Presentation	Allow for access as soon as possible Items to be added (revise Teaching Philosophy, Credentials, Evaluations, Student teaching assignment)	Dec 13

Detailed expectations, descriptions and examples can be found in the Handbook for Student Teaching

Observations will be scheduled in advance by your supervisor and will occur on Mondays or Fridays. Your first and last observation will be done in person. Ideally, we will conduct one observation per month. If you have a change in the scheduled observation, please let me know ASAP. If there is a change on the day of the observation, please send me a text message or email.

Following each observation, please respond within 24-48 hours (via email) to the following questions:

Describe a few items that went well and a few that did not. What is one thing that you would like to improve regrading this lesson (or anything else related to your teaching practice) and what steps are you taking to accomplish this?

Example of Teacher Candidate Expectations

- 1. Two-way, open communication: communicate triumphs & needs, strengths & weaknesses, accomplishments and need for help. Communication may include a collaborative log.
- 2. Do not view criticism as negative. Always be open to ideas from others to help make you a better teacher.
- 3. Treat all students with respect, seeing & knowing them as individual human beings with personality, talents, and struggles.
- 4. Know your subject matter.
- 5. Arrive at school 10 minutes prior to the school day (school day 7:25am 3:25pm).
- 6. Dress professionally (Friday can include jeans with red/black school apparel).
- 7. Attend staff meetings, IEP meetings, and committee meetings as appropriate.
- 8. Be familiar with school policies as in the school Handbook such as fire, tornado, Code React, and evacuation procedures.
- 9. Establish and reinforce the schools "mantra:" All students & staff are respectful, responsible, & driven to succeed.
- 10. Follow established attendance & grading policies recording information in Skyward.
- 11. Plan notes, labs, assignments & activities at least 1 week in advanced, but anticipate some flexibility to be necessary & expected.
- 12. Become familiar with various technologies and use them to engage and enhance student learning.
- 13. Reflect weekly on your student teaching experience.
- 14. Visit other classrooms to watch various teaching styles in multiple disciplines.
- 15. Have fun with student teaching! You will never work harder for less pay in your life \odot

Example of Expectations - Weekly schedule: Attend any after school staff/team meetings Week 1 П Observe all lessons for Alternative Biology and General Attend an IEP meeting/or follow up with permission from all members (when appropriate) П Learn students' names and classroom procedures Further discuss with cooperating teacher(s) upcoming Get acquainted with administrators and other staff weeks' schedules members Talk with the principal or science coordinator about Begin making relationships with students and staff observation/evaluation. Review Statement of Expectations and make revisions Develop a detailed lesson plan for Supervisor on lessons Week 2 that are used in class prior to evaluation Continue to observe all lessons for Alternative Biology Help students and cooperating teacher during all other and General Biology class periods; get involved and team teach as much as П Review district and school handbooks possible Week 5 Discuss goals and expectations with cooperating teacher(s) Continue teaching 2nd hour Alternative Biology and 10th Provide assistance to teachers and students during hour Biology classroom activities Begin teaching 3rd hour Alternative Biology П Reflect on daily school experiences Search for modifications to current lesson plans to Team teach one lesson or lead one activity improve the lesson. i.e. engaging warm-up activities, Attend an IEP meeting with permission from all members group work, games, video-clips, etc. (if/when appropriate) Observe a different classroom in the building during prep Week 3 or lunch hour Continue to team-teach lessons with cooperating teacher Continue gathering resources from Cooperating (when appropriate) Teacher(s) Provide students with individual help and/or feedback Continue to reflect and grow from teaching experiences regarding academics and/or behavior Attend a different extracurricular event that takes place Further discuss with cooperating teacher(s) upcoming weeks' schedules Volunteer for an extracurricular event or any other event П Begin to generate or research new ideas or activities that that takes place at the school or within the district are relevant to the topics that will be taught. Follow up with IEP meeting; or attend another if possible Attend an extracurricular event that takes place at the Further discuss with cooperating teacher(s) upcoming school weeks' schedules Talk with supervisor and set up an Week 6 Continue teaching 2nd and 3rd hour Alternative Biology observation/evaluation Develop a detailed lesson plan for Supervisor on lesson(s) and 10th hour Biology Continue to search for additional modifications or that I will teach Week 4 activities that can be implemented into lesson plans. Observe another classroom in the building during prep or Review Statement of Expectations to see that accurate progress is being made Begin gathering resources from cooperating teacher(s) П Continue to help assist with IEP process or any other П Begin teaching 2nd hour Alternative Biology and 10th hour student referral or testing processes Biology classes Continue gathering resources from cooperating teacher(s)

	Have a discussion with cooperating teacher(s) about		Attend an extracurricular event
	performance and progress made		Make modifications to lesson plans as necessary
	Continue to be involved with student IEP meetings	Week 9	
	Offer help before/after school for students in the Science		Teach full-time
	Resource room		Continue gathering resources from cooperating teacher(s)
	Further discuss with cooperating teacher(s) upcoming		Set up observation/evaluation with Supervisor
	weeks' schedules	Week 1	
Week 7			Teach Full time
	Set up observation/evaluation with Supervisor		Develop and implement closing activities to wrap-up
	Develop a detailed lesson plan for Supervisor prior to visit		teaching placement
	Continue to teach 2 nd and 3 rd hour Alternative Biology		Observe another classroom in the building
	and 10^{th}		Discuss the past weeks teaching with cooperating
	Continue gathering resources from cooperating teacher(s)		teacher(s), Supervisor, and administrators/curriculum
	Discuss with cooperating teacher(s) the upcoming weeks'		coordinator that observed and evaluated a lesson.
	schedules and review the lesson plans that were created	<u>Week 11</u>	<u>l-16</u>
	for full-time teaching		Continue gathering resources from cooperating teacher(s)
	Video tape one lesson and write a self-reflection		Continue to work with, plan, and observe cooperating
	Begin teaching 7/8th or 11th hour Biology		teacher to gain more knowledge and skills about teaching
	Plan to teach 1-3 rd hour Alternative Biology and 7/8 th and		Discuss interviews, hiring tips, etc. with staff and
	10th hour Biology		cooperating teachers(s)
Week 8			Observe other classrooms
	Teach full-time		
	Continue gathering resources from cooperating teacher(s)		
	Ask another administrator or science coordinator to make		
	observations and evaluate

Appendix 4: Lesson Plan template UWSP, Professional Education Program Lesson Plan Framework

Please use this framework to design your plans for effective instruction. The embedded shaded guidelines and questions will help you consider aspects to address as you prepare your plan. Be sure to keep in mind the Gradual Release of Responsibility Model as you write your plan. Remember this learning model guides the learner through teacher modeling and demonstration, shared teacher/learner demonstration, learner guided practice, and learner independent practice. Please enlarge cells as needed when writing this plan.

Central Focus/Enduring Understandings of Lesson/Unit				
Essential Questions				
Provide open-ended, grade-level (or age-level) appropriate questions that will prompt exploration, innovation, and critical thinking about the				
central focus (typically 2-4).				
Content Standards: Number and Applicable Wording (quote relevant parts of standards, i.e., Common Core State				
Standards, Wisconsin Model Academic Standards, Wisconsin Model Early Learning Standards)				
Lesson Standards (Unit Standards if applicable)				
Learning Outcomes/Objectives [align with reference lesson standard number(s)]				
Learning Outcomes/Objectives [angli with reference lesson standard number(s)]				
☐ Identify what your learners will know, will be able to do, and value as a result.				
Formative Assessments				
Please keep in mind that formative assessment is an on-going process including: developing the assessment, providing feedback and using the results to inform instruction.				

		Describe how you will use formative assessments to elicit direct, observable evidence in order to monitor and/or measure learning and inform instruction.				
		Identify how you will use the results of your formative assessment to plan interventions and/or additional challenges for learners.				
		Identify how you will communicate with learners about their learning.				
Please	con	sider:				
•		what ways do learners have multiple options to demonstrate their learning?				
•		w will your assessment be culturally responsive?				
•	H_0	w will you support learners in reflecting on and monitoring their own learning?				
		Academic Language				
		List general academic and content specific language that is essential for learner understanding.				
	_	2000 goneral academic and content operate anguage that is essential to realist and essentialing.				
Please	con	sider:				
	•	What prior knowledge do learners need in order to be able to understand the unit/lesson concepts?				
	•	What key vocabulary must students have in order to access the lesson/unit concepts?				
	•	How will you help the variety of learners in your classroom understand the unit/lesson concepts?

Teacher Candidate		Coop Teacher		Superviso r		
Subject/Grade		School/City				
Date		Start Time		End Time		
I	InTASC Standard Observations					
The Learner and	Learning					
1. Learner Development	The teacher understands how learners grow and develop, recognizing that patters of learning and development vary individually within and across the cognitive, linguistic, social emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.					
2. Learning Differences	The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.					
3. Learning Environment						
Content						
4. Content Knowledge	The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he/she teachers and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.					
5. Application of Content	The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.					
Instructional Practice						
6. Assessment	The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.					
7. Planning for Instruction	The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.					
8. Instructional Strategies	The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.					
Professional Responsibility						
9. Professional Learning & Ethical Practice	The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of choices and actions on others, and adapts practice to meet the needs of each learner.					
10. Leadership & Collaboration	responsibility for student learning, colleagues, other school professiona learner growth, and to advance the	The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.				
Guidance/Feedback for Teacher Candidate:						

The [teacher candidate] [cooperating teacher] [university supervisor] discussed the observation in	a conference.
** Please underline conference participants**	
Prepared by university supervisor:	Date:

Preconference Assessment Template

*How will you address these standards during your lesson? You may have addressed some of these standards outside of the observed lesson. If that is the case, please indicate what you have done to fulfill the standard(s).

	I	
1. Learner Development	The teacher understands how learners grow and develop, recognizing that patters of learning and development vary individually within and across the cognitive, linguistic, social emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.	
2. Learning Differences	The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.	
3. Learning Environment	The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.	
4. Content Knowledge	The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he/she teachers and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.	
5. Application of Content	The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.	
6. Assessment	The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.	
7. Planning for	The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.	
8. Instructional Strategies	The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.	
9. Professional Learning & Ethical Practice	The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of choices and actions on others, and adapts practice to meet the needs of each learner.	
10. Leadership & Collaboration	The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.
