

AQUACULTURE APPRENTICESHIP

UW-Stevens Point has partnered with world's largest aquaponics facility, Superior Fresh, to offer a 6 month apprenticeship to gain hands on experience and skills to raise Atlantic salmon in land based, water reuse systems. The apprenticeship includes learning and performing the daily operations and duties in the aquaculture portion of Superior Fresh, raising Atlantic salmon for consumption. Duties include stocking, caring for, and harvesting fish. The apprentice will have the opportunity to work with all life stages of growth for Atlantic salmon and the associated systems in which they will be raised. [Learn more about at Superior Fresh.](#)
