Get the courses you need on your schedule to earn your degree! Check out these engineering online offerings.

Course instructor: UW-Stevens Point at Wausau Engineering Professor Mark Holdhusen

**Fall 2023**
- ENGR 105 - Engineering Fundamentals
- ENGR 222 - Mechanics of Materials

**Spring 2024**
- ENGR 107 - Engineering Graphics with CAD
- ENGR 220 - Statics
- ENGR 221 - Dynamics

Course Descriptions and Prerequisites

**ENGR 105 - Engineering Fundamentals**  
*Description:* Designed to equip engineering students with the necessary tools and background information to prepare them to be successful engineering students as well as a successful practicing engineer. Topics include project management, teamwork, technical writing, working with data and using spreadsheets, creating presentations, engineering design, and a thorough understanding of the engineering profession. (3 credits)  
*Prerequisite:* MATH 95 (Intermediate Algebra) or concurrent registration, or UW System Math Placement Score placing into college credit-bearing mathematics

**ENGR 222- Mechanics of Materials**  
*Description:* Principles of mechanics, force systems, equilibrium, structures, distributed forces, moments of inertia of area, friction. For students in the pre-engineering curriculum. (4 credits)  
*Prerequisite:* C or better in ENGR 220 (Statics)

**ENGR 107 - Engineering Graphics with CAD**  
*Description:* Engineering graphics focusing on graphical communication. Topics include descriptive geometry elements, visualization, engineering drawing techniques, orthographic projection, pictorial representation, auxiliary views, section views, and basic dimensioning. Incorporates computer aided drafting (CAD) with engineering applications using 2-D drawing and 3-D modeling techniques. (3 credits)

**ENGR 220 - Statics**  
*Description:* Principles of mechanics, force systems, equilibrium, structures, distributed forces, moments of inertia of area, friction. For students in the pre-engineering curriculum. (3 credits)  
*Prerequisite:* MATH 225 (Calculus I)

**ENGR 221 - Dynamics**  
*Description:* Kinematics, force-mass-acceleration relationships, work and energy, impulse and momentum, moments of inertia of mass. For students in the pre-engineering curriculum. (3 credits)  
*Prerequisite:* ENGR 220 (Statics) and MATH 226 (Calculus II)
