

FT Forester-Timber Buyer

Location: Wautoma, WI (Central WI)

Applications Due: Open Until Filled

Annual Salary: \$65,000

Benefits: 401(k), Health Ins., Paid Time Off

Job Summary

We are seeking a dedicated and knowledgeable Forester to join our team. The ideal candidate will be responsible for managing forest resources, ensuring sustainable practices, and overseeing the health of forest ecosystems. This role requires a strong understanding of logistics, materials management, and supply chain systems to effectively coordinate forestry operations and contribute to the overall productivity of our organization.

Responsibilities

- Manage and oversee forestry operations, including planning and executing timber harvests while ensuring compliance with environmental regulations.
- Conduct assessments of forest health, including tree growth, pest infestations, and disease management.
- Collaborate with stakeholders to develop sustainable forest management plans that balance ecological health with economic viability.
- Coordinate logistics for the procurement of materials necessary for forestry operations.
- Monitor inventory levels and manage contracts.
- Analyze data related to supply chain management to optimize operational efficiency.

Skills

- Degree in Forestry with a minimum of 3 years' experience, preferred.
- Certified Plan Writer certification
- Strong knowledge of silviculture of Wisconsin trees.
- Excellent organizational skills with a focus on production planning and procurement processes.
- Ability to work collaboratively with diverse teams and communicate effectively with stakeholders.
- Strong analytical skills to assess forest conditions and make informed decisions regarding resource management.
- Familiarity with sustainable forestry practices and environmental regulations is highly desirable.

Join us in making a positive impact on our forests while advancing your career in an engaging environment!
