

FISH VACCINATION

NETWORKING & RESOURCES FOR **VETERINARIANS**

Dr. Myron Kebus, MS, DVM

Dr. Thomas Loch, MS, PhD

Aquatic Animal Health Laboratory, Dept. of Pathobiology & Diagnostic Investigation, College of Veterinary Medicine

Meeting #1

March 3, 1:00-2:00pm CST

Meeting #2

April 2, 1:00-2:00pm CST

Meeting #3

May 14, 1:00-2:00pm CST

We invite veterinarians and fish health specialists in the North Central Region to participate in a series of virtual listening and learning sessions on fish vaccines. We first want you to tell us what you would like to know about fish vaccines so we can direct you to vaccine experts and vaccine resources to promote education on proper vaccine usage to increase survival and economic yield of farmed fish. **Although you are welcome to register for any of the above meetings; they build on each other so, we recommend registering for all three meetings.**

Questions? Reach out to Emma Hauser, Aquaculture Outreach Specialist, ehauser@uwsp.edu

These meetings are part of a project funded by The North Central Regional Aquaculture Center
